## Part II: The Single Plan for Student Achievement Template

School: Mountain View Elementary School

District: Goleta Union School District

County-District School (CDS) Code: 42-69195-6045504

Principal: Ned Schoenwetter

Date of this revision: October 2, 2016

The Single Plan for Student Achievement (SPSA) is a plan of actions to raise the academic performance of all students. California *Education Code* sections 41507, 41572, and 64001 and the federal Elementary and Secondary Education Act (ESEA) require each school to consolidate all school plans for programs funded through the ConApp and ESEA Program Improvement into the SPSA.

## Form A: Planned Improvements in Student Performance

The School Site Council has analyzed the academic performance of all student groups and has considered the effectiveness of key elements of the instructional program for students failing to meet academic performance index and adequate yearly progress growth targets. As a result, it has adopted the following school goals, related actions, and expenditures to raise the academic performance of students not yet meeting state standards:

**LEA GOAL:** LCAP Goal #1 Demonstrate robust achievement growth for all pupils.

**SCHOOL GOAL 1:** Mountain View will see a 10% growth in the number of students performing in the “standards met” or “standards exceeded” performance bands on the 2016-2017 California Assessment of Student Performance and Progress in language arts when compared to scores from the 2015-2016 assessments. We will see a 5% growth in the number of students achieving in these areas on the mathematics portion of the assessment.

<b>What data did you use to form this goal?</b>	<b>What were the findings from the analysis of this data?</b>	<b>How will the school evaluate the progress of this goal?</b>
CASSPP data from 2014 through 2016  Dibels assessment data from Fall 2016  Ren Star 360 Data from Fall 2016	<p>Analysis of the 2016 CASSPP data showed that 81.6% of our students met or exceeded standards expectations in math and 76.7% in English Language Arts. We saw a growth of 15.1% in math compared to the previous year and an 8.8% increase in English language arts. This increase was very positive, but we still have room for growth, especially when compared to similar schools in Santa Barbara County. While these numbers exceeded the district averages of 54% in math and 59% in English Language Arts, our English language art scores are 10-12% below similar high-performing schools in the county. Our math scores are among the best in the county, but still have room for improvement.</p> <p>When tracking cohort data, our 2015-16 fourth grade students showed a 9.3% increase in English language arts, but a 4.7% decrease in mathematics. This was the only cohort area to go down. Our fifth grade students saw a 18.7% increase in ELA and 18.8% in math. Our sixth grade saw a 9.3% increase in ELA and a large 22.3% increase in math.</p>	<p>Grades 3-6 will give the Interim block assessments from CASSPP to gauge student mastery of concepts using the state testing formats. Ren Star 360 assessments will be given to students four times per year. Dibels assessments will be given three times per year. These results will be analyzed at grade level data team meetings four times per year. In September, November, March and June. At those meetings, the data teams will look at student growth, identify intervention needs and form Target Time groups.</p> <p>We will also use the data gathered from each of these assessments to determine growth towards our school goals. Ren Star 360 has a predictor tool that will show us expected growth in our CAASPP results.</p>

	<p>Other data points from CAASPP showed that our English learner students scored an average of 2.3 in both math and ELA compared to a score of 3.3 for our English only students. A score of 3 would equate to meeting standard. There is an achievement gap. We also saw that our RFEP students are achieving at high levels with average scores of 3.1 in ELA and 3.5 in math, outscoring our English only population.</p> <p>Our analysis showed that we have some lower scores in our current fifth grade. (67% met or exceeded in both ELA and math.) This has been a cohort that has a larger number of students with IEPs or learning needs that have been diagnosed over the past years. Our current fourth grade struggled in ELA (66% met or exceeded) while 88% met or exceeded in math.</p> <p>Another observation is that our scores increased significantly in our fifth and sixth grades.</p> <p>RenStar 360 data from the fall of 2016 gave us a baseline. As we give more assessments throughout the school year, we will be able to track student growth and areas of success and need.</p>

**STRATEGY:** During the 2016-2017 school year, Mountain View School and the school district will be in our second year of using the Bridges and CPM math programs. We also have multiple primary grade teachers piloting two new CCSS aligned ELA programs. Teachers have 100 minutes of team planning time each week to implement the new programs, analyze student assessment data and plan necessary interventions. District professional development will focus on the math program, the new ELA pilot, setting ELD goals, technology integration and professional learning goals. Every staff meeting during the school year will involve discussion and learning regarding math and ELA implementation. In addition, targeted intervention time for academic interventions for both math and English Language Arts will continue two times per week for forty-five minute time periods. Classroom teachers, certificated tutors, the learning center teacher, resource teacher and our ELD teacher will all be involved in providing targeted interventions for students based on grade level assessment data.

Action/Date	Person(s) Responsible	Task/Date	Cost and Funding Source (Itemize for Each Source)
June 2016 - Site specialist schedules organized to allow common time for targeted intervention. 2x per week for a total of 90 minutes per week. ## Form A

**LEA GOAL:** Provide Effective Learning Environments: Student learning occurs in safe, healthy, well maintained and well equipped facilities with instructional material aligned to rigorous standards. Teachers are highly qualified, inspired, well trained, and capable of meeting the diverse needs of each student.

**SCHOOL GOAL:** By June of 2016 Mountain View School will have implemented multiple programs, interventions and supports to meet the social and emotional needs of our students.

<b>What data did you use to form this goal?</b>	<b>What were the findings from the analysis of this data?</b>	<b>How will the school evaluate the progress of this goal?</b>
Data from behavior records, school psychologist reports, MTSS referrals, parent conferences and teacher assessments.	While Mountain View performs well academically, it also has students with social and emotional needs that can hinder their learning. Our MTSS teams have had more referrals for behavior or emotional needs than in the past. We plan to put multiple programs in place to address these needs while also increasing support to specific students and grades. Students with needs range from students with special education needs to students identified as gifted.	At the end of the school year we will analyze the number of behavior reports that are filed and compare that to the beginning of the year. We will also review the number of students referred to the MTSS process for emotional or behavioral needs.

**STRATEGIES:** During the 2016-17 school year, we will use a variety of resources to determine students who are in need of intervention due to emotional or behavioral needs. Our MTSS team will meet regularly to review referrals from teachers and to determine best practices and interventions to put into place. We will also be increasing adult support where needed, purchase programs to implement, and provide whole school supports.

Action/Date	Person(s) Responsible	Task/Date	Cost and Funding Source (Itemize for Each Source)
September 2016 - June 2017 - Principal will keep behavior records and keep in contact with school psychologist	Principal, School Psychologist	The principal keeps behavior logs, contacts parents and communicates weekly with school psychologist in regard to student needs.	No costs

September 2016 - Ren Star Testing will be followed by data team meetings	MTSS Team, Classroom Teachers	At data team meetings, classroom teachers and the data team will analyze student assessment data and discuss other student needs. Social and emotional needs, especially for identified gifted students will be discussed.	Substitute costs - \$1,000 - LACP Funds
September 2016 - Initial MTSS to address needs identified at beginning of year	MTSS Team	The initial MTSS meeting in early September will focus on students who were previously identified with needs, along with reviewing records of students new to our school.	Substitute costs - \$250 - LCAP Funds
September 2016 -	Principal	The MTSS team will meet on Tuesdays to identify student	Substitute Costs - \$2,000 -

Schedule Tuesday MTSS, 504 and IEP meetings for school year		needs, discuss teacher referrals, and create action plans. Parents will be included in these meetings as appropriate.	Portions covered by school district
September - June	Principal	Certificated tutor will be hired to be at recess three hours per week to help kids feel safe and work on anti-bullying strategies	\$2,340
October 2016 - Hire certificated tutors	Principal	Certificated tutors will be hired to work 2-3 hours per day to be shared in fifth grade and kindergarten as needed to help support behavioral and academic needs.	\$5,400
October 2016 - Anti-Bullying Assembly	PTA, Principal	Hire "Bye, Bye, Bully" program to give school-wide assemblies on bullying and how to get along.	\$600
October 2016 - Implement mindfulness program in kindergarten	Classroom Teachers	Classroom teachers will use "Me Moves" program to teach mindfulness strategies to students.	\$90
September - June - Friendship groups and individual counseling	School Psychologist	School psychologist will provide social skills trainings through friendship groups and will also provide individual counseling.	No additional cost
September - June - Smaller P.E. classes for grades as needed	Principal	Classes who will benefit from smaller class sizes will attend P.E. as an individual class, not as a grade level. This intervention will be determined by the classroom teachers, school psychologist and the principal.	\$1,800
September - June - Character Counts / Star Card Assemblies	Principal	Four Character Counts assemblies will be held throughout the year. At these assemblies, good character will be discussed, a pillar of character will be introduced and	No cost

<p>September - June - Community Service Program</p>	<p>Classroom Teachers</p>	<p>recognition will be given for STAR Card recipients.</p> <p>All upper grade students are expected to complete between 10-15 hours of community service per year. Students complete forms to record their volunteer hours and receive recognition at our awards assembly at the end of the year.</p>	<p>\$50 for certificates</p>
<p>September - June - Gifted Learner Training for Teachers</p>	<p>Classroom Teachers, District Gifted Education Specialist</p>	<p>This year, third grade teachers will go through multiple full day trainings on how to teach gifted learners and how to meet their unique needs. Fourth, fifth and sixth grade teachers will have refresher trainings and visits from Joana Lauer.</p>	<p>Sub costs covered by district</p> <p>No cost</p>
<p>September - June - As needed support from district behaviorist and inclusion support specialists</p>	<p>Principal, Teachers</p>	<p>District behaviorist and inclusion specialists will be used to observe classes, work with teachers on setting up behavior plans or other interventions. Consult time with teachers and MTSS team will be included.</p>	<p>Sub costs - (mentioned above)</p>
<p>June 2017 - MTSS meeting to recap growth and future needs for students.</p>	<p>MTSS Team</p>	<p>The MTSS team will meet multiple times per year to review the effectiveness of interventions and discuss needed new interventions. At the end of the year, the group will come up with recommendations for the following year, including class placements.</p>	<p>Substitute teachers for classroom and special education teachers attending meetings. Costs for IEP and 504 meetings covered by district special education department. SST meeting sub costs covered by LCAP funding. - \$2,000</p>

## Form B: Centralized Services for Planned Improvements In Student Performance

Centralized administrative services are provided to facilitate implementation of categorical programs. Centralized services assist the school to attain achievement objectives for every student. These services include:

## Form C: Programs Included in this Plan

Check the box for each state and federal program in which the school participates. Enter the amounts allocated for each program in which the school participates and, if applicable, check the box indicating that the program's funds are being consolidated as part of operating a schoolwide program (SWP). The plan must describe the activities to be conducted at the school for each of the state and federal programs in which the school participates. The totals on these pages should match the cost estimates in Form A and the school's allocation from the ConApp.

Note: For many of the funding sources listed below, school districts may be exercising Categorical Program Provisions options (flexibility) with information available at <http://www.cde.ca.gov/fg/ac/co/documents/sbx34budgetflex.doc>.

**Of the four following options, please select the one that describes this school site:**

- This site operates as a targeted assistance school (TAS), not as a schoolwide program (SWP).**
- This site operates a SWP but does not consolidate its funds as part of operating a SWP.**
- This site operates a SWP and consolidates only applicable federal funds as part of operating a SWP.**
- This site operates a SWP and consolidates all applicable funds as part of operating a SWP.**

## Form G: Single Plan for Student Achievement Annual Evaluation

Pursuant to California *Education Code* Section 64001(g), the School Site Council (SSC) must evaluate at least annually the effectiveness of planned activities. In the cycle of continuous improvement of student performance, evaluation of the results of goals will provide data to inform and guide subsequent plans.

### Plan Priorities

- Identify the top priorities of the current SPSA. **(No more than 2–3.)**
- Identify the major expenditures supporting these priorities.

### Plan Implementation

The first goal for the 2015-16 SPSA was focused on English-Language Arts and Mathematics performance by pupils. It stated that *Mountain View will see a 10% growth in the number of students performing in the “standards met” or “standards exceeded” performance bands on the 2015-2016 California Assessment of Student Performance and Progress in both mathematics and language arts when compared to scores from the 2014-2015 assessments.* This was a lofty goal, as we do not normally see growth in the double-digit range. We did see a 15.1% growth in the number of students meeting or exceeding standards in mathematics. In English language arts, we saw an increase of 8.8%. While we did not meet the 10% goal in English language arts, the growth was strong.

We attribute the growth to a variety of factors including the first year of use of the Bridges math program in grades K-5 and the CPM program in grade 6. The programs, which are aligned to the new standards, helped focus our instruction on the standards and provided good resources for learning. In English language arts, we attribute some of the growth to our new MTSS model and increased data use in determining student needs for intervention. By using the Dibels assessment school-wide for the first time, we were able to target our reading intervention more clearly and assess growth more effectively. We also started using the SIPPS reading intervention materials with students in need of assistance. This program is very systematic and was very helpful with our struggling readers.

Our second goal was *By June of 2016 Mountain View School will have implemented a defined technology plan that addresses needs and skills outlined in the 21<sup>st</sup> Century Learning Skills. We will have a 1:1 student to device ratio of Chromebooks in grades 4-6 and a 2:1 ratio of iPads in grades K-2. We will also introduce a STEM science program that teaches students the 21<sup>st</sup> Century Learning Skills in an engaging and hands-on environment.* We are happy to say that we have accomplished most of these goals. While the implementation of a defined technology plan was partially accomplished, we did get to a point where we have a Chromebook for all students in grades 3-6 and a 2:1 ratio in grades K-2. The District technology committee did develop a set of district guidelines for technology integration, but the items were not finalized and shared with teachers as an expectation of implementation.

The School Site Council discussed goals to be included in the Single Plan for Student Achievement at meetings in the late fall of 2016-17. Each member of the group gave their thoughts and opinions on possible goals. The group gave its support of the goals listed in this document.
