## INDEPENDENT AUDITOR'S REPORT

Governing Board  
Goleta Union School District  
Goleta, California

### **Report on the Financial Statements**

We have audited the accompanying financial statements of the governmental activities, each major fund, and the aggregate remaining fund information of the Goleta Union School District (the District) as of and for the year ended June 30, 2018, and the related notes to the financial statements, which collectively comprise the District's basic financial statements as listed in the table of contents.

### ***Management's Responsibility for the Financial Statements***

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

### ***Auditor's Responsibility***

Our responsibility is to express opinions on these financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States; and the *2017-2018 Guide for Annual Audits of K-12 Local Education Agencies and State Compliance Reporting*, issued by the California Education Audit Appeals Panel as regulations. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the District's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the District's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

## ***Opinions***

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, each major fund, and the aggregate remaining fund information of the Goleta Union School District, as of June 30, 2018, and the respective changes in financial position thereof for the year then ended in accordance with accounting principles generally accepted in the United States of America.

## ***Emphasis of Matter - Change in Accounting Principles***

As discussed in Note 1 and Note 15 to the financial statements, in 2018, the District adopted new accounting guidance, GASB Statement No. 75, *Accounting and Financial Reporting for Postemployment Benefits Other Than Pensions*. Our opinion is not modified with respect to this matter.

## ***Other Matters***

### ***Required Supplementary Information***

Accounting principles generally accepted in the United States of America require that the management's discussion and analysis on pages 5 through 15, budgetary comparison schedules on pages 64 through 66, schedule of the District's proportionate share of the net OPEB liability - MPP program on page 67, schedule of the District's proportionate share of the net pension liability on page 68, and the schedule of District contributions on page 69, be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

### ***Other Information***

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the Goleta Union School District's basic financial statements. The accompanying supplementary information such as the combining and individual non-major fund financial statements and Schedule of Expenditures of Federal Awards, as required by *Title 2 U.S. Code of Federal Regulations (CFR) Part 200, Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards (Uniform Guidance)* and the other supplementary information as listed in the table of contents are presented for purposes of additional analysis and are not a required part of the basic financial statements.

The accompanying supplementary information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the basic financial statements. Such information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the accompanying supplementary information is fairly stated, in all material respects, in relation to the basic financial statements as a whole.

This section of Goleta Union School District's (the District) annual financial report presents our discussion and analysis of the District's financial performance during the fiscal year that ended on June 30, 2018 with comparative information for the year ended June 30, 2017. Please read it in conjunction with the District's financial statements, which immediately follow this section.

## OVERVIEW OF THE FINANCIAL STATEMENTS

### The Financial Statements

The financial statements presented herein include all of the activities of the Goleta Union School District using the integrated approach as prescribed by Governmental Accounting Standards Board (GASB) Statement No. 34.

The *Government-Wide Financial Statements* present the financial picture of the District from the economic resources measurement focus using the accrual basis of accounting. They present governmental activities. These statements include all assets of the District (including capital assets) as well as all liabilities (including long-term obligations). Additionally, certain eliminations have occurred as prescribed by the statement in regards to interfund activity, payables, and receivables.

*Governmental Activities* are prepared using the economic resources measurement focus and the accrual basis of accounting.

The *Fund Financial Statements* include statements for each of the following three categories of activities: governmental, proprietary, and fiduciary.

The *Governmental Funds* are prepared using the current financial resources measurement focus and the modified accrual basis of accounting.

The *Proprietary Funds* are prepared using the economic resources measurement focus and the accrual basis of accounting.

The *Fiduciary Funds* are prepared using the economic resources measurement focus and the accrual basis of accounting.

*Reconciliation of the Fund Financial Statements to the Government-Wide Financial Statements* is provided to explain the differences created by the integrated approach.

The primary unit of the government is the Goleta Union School District.

### REPORTING THE DISTRICT AS A WHOLE

#### The Statement of Net Position and the Statement of Activities

The *Statement of Net Position* and the *Statement of Activities* report information about the District as a whole and about its activities. These statements include all assets and liabilities of the District using the accrual basis of accounting, which is similar to the accounting used by most private-sector companies. All of the current year's revenues and expenses are taken into account regardless of when cash is received or paid.

These two statements report the District's net position and changes in them. Net position is the difference between assets and deferred outflows of resources, and liabilities and deferred inflows of resources, which is one way to measure the District's financial health, or financial position. Over time, increases or decreases in the District's net position will serve as a useful indicator of whether the financial position of the District is improving or deteriorating. Other factors to consider are changes in the District's property tax base and the condition of the District's facilities.

The relationship between revenues and expenses is the District's *operating results*. Since the governing board's responsibility is to provide services to our students and not to generate profit as commercial entities do, one must consider other factors when evaluating the overall health of the District. The quality of the education and the safety of our schools will likely be an important component in this evaluation.

In the *Statement of Net Position* and the *Statement of Activities*, we present the District activities as follows:

**Governmental Activities** - Most of the District's services are reported in this category. This includes the education of kindergarten through grade eight students, and the on-going effort to improve and maintain buildings and sites. Property taxes, State income taxes, user fees, interest income, Federal, State and local grants, as well as general obligation bonds, finance these activities. The District reports all of its services in this category.

### REPORTING THE DISTRICT'S MOST SIGNIFICANT FUNDS

#### Fund Financial Statements

The fund financial statements provide detailed information about the most significant funds - not the District as a whole. Some funds are required to be established by State law and by bond covenants. However, management establishes many other funds to help it control and manage money for particular purposes or to show that it is meeting legal responsibilities for using certain taxes, grants, and other money that it receives from the U.S. Department of Education.

**Governmental Funds** - Most of the District's basic services are reported in governmental funds, which focus on how money flows into and out of those funds and the balances left at year-end that are available for spending. These funds are reported using an accounting method called modified accrual accounting, which measures cash and all other financial assets that can readily be converted to cash. The governmental fund statements provide a detailed short-term view of the District's general government operations and the basic services it provides. Governmental fund information helps determine whether there are more or fewer financial resources that can be spent in the near future to finance the District's programs. The differences of results in the governmental fund financial statements to those in the government-wide financial statements are explained in a reconciliation following each governmental fund financial statement.

**Proprietary Funds** - When the District charges users for the services it provides, whether to outside customers or to other departments within the District, these services are generally reported in proprietary funds. Proprietary funds are reported in the same way that all activities are reported in the *Statement of Net Position* and the *Statement of Revenues, Expenses, and Changes in Fund Net Position*. In fact, the District's enterprise funds are the same as the business-type activities we report in the government-wide statements, but provide more detail and additional information, such as cash flows, for proprietary funds. We use internal service funds (the other component of proprietary funds) to report activities that provide supplies and services for the District's other programs and activities, such as the District's Warehouse Revolving Fund. The internal service funds are reported with governmental activities in the government-wide financial statements.

### THE DISTRICT AS TRUSTEE

#### Reporting the District's Fiduciary Responsibilities

The District is the trustee, or *fiduciary*, for funds held on behalf of others, like our funds for associated student body activities. The District's fiduciary activities are reported in the *Statement of Fiduciary Net Position*. We exclude these activities from the District's other financial statements because the District cannot use these assets to finance its operations. The District is responsible for ensuring that the assets reported in these funds are used for their intended purposes.

### FINANCIAL HIGHLIGHTS

#### Executive Summary

The District ended the year in a stable financial position that was improved over originally projected District's Adopted and Interim Budgets. Total revenues in the District General Fund reached \$51,083,026, with \$6,262,069 coming from restricted resources. Total expenditures in the District General Fund were \$51,156,860, with \$14,209,306 in restricted programs. The favorable financial position at year-end allowed for a \$225,000 transfer to the District's Deferred Maintenance Fund.

The District's fiscal year operations in the General Fund drew down \$73,834 on fund balance reserves. This is a significant improvement over the original amount of deficit spending projected in the Original 2017-2018 Budget of \$3.6 million. General Fund Reserves at the end of the 2017-2018 fiscal year totaled \$12,348,597, of which \$1,534,706 is the required three percent Reserve for Economic Uncertainties, and assignments of \$1,526,558.

#### Property Taxes

Property tax revenue growth for GUSD's General Fund reached \$38,525,816 for 2017-2018, which resulted in 8.63 percent growth for the 2017-2018 fiscal year. A one-time distribution of prior year tax amounts of \$1,356,278 enhanced the overall property tax growth for the year. The prior year amount represents 44 percent of the total growth for 2017-2018. Without this one-time infusion of tax revenue, growth in property tax would have been 4.8 percent. The additional unanticipated growth is largely due to increased amounts received from redevelopment agencies, as the final distribution is in June. The total amount of the growth reached \$3,061,803, which was the biggest factor in the reduction of General Fund deficit spending for 2017-2018. Projections of property tax revenue growth in the future years are three percent from one year to the next.

#### One-Time Funding

The 2017-2018 state budget again included one-time funds for the reimbursement of outstanding mandate claims. The original budgeted amount for 2017-2018 did not include any one-time discretionary funds, but eventually the state did include more one-time funding for districts. For 2017-2018, the one-time revenue received in the General Fund was \$505,738. The new total of one-time money assigned in the General Fund at the end of 2017-2018 is \$1,526,558. We project to receive approximately \$500,000 of additional one-time money in 2018-2019. GUSD Administration will develop a plan to spend the funds and bring it to the board for prioritization and approval at a future meeting.

#### Enrollment

Final certified enrollment figures for the Goleta Union School District for the 2017-2018 school year, as reported in the California Longitudinal Pupil Achievement System (CALPADS) was 3,541 total students, which is down 30 from the prior year. The District's total unduplicated pupil count of Free and Reduced Meal eligible students and English Language Learners is 1,671 students, which still represents 47 percent of the population.

### THE DISTRICT AS A WHOLE

#### Net Position

The District's net position was \$(15,983,386) for the fiscal year ended June 30, 2018. Of this amount, \$(32,473,869) was unrestricted. Restricted net position is reported separately to show legal constraints from debt covenants, grantors, constitutional provisions, and enabling legislation that limit the governing board's ability to use that net position for day-to-day operations. Our analysis below, in summary form, focuses on the net position (Table 1) and change in net position (Table 2) of the District's governmental activities.

**Table 1**

	Governmental Activities	
	2018	2017, as restated
<b>Assets</b>		
Current and other assets	\$ 20,125,379	\$ 33,778,135

<b>Total Assets</b>	<b>44,325,093</b>	<b>58,909,150</b>
<b>Deferred Outflows of Resources</b>	<b>18,204,177</b>	<b>12,330,633</b>
<b>Liabilities</b>		
Current liabilities	898,225	15,199,107
Long-term obligations	15,568,517	16,671,588
Aggregate net pension liability	56,812,717	50,535,767
<b>Total Liabilities</b>	<b>73,279,459</b>	<b>82,406,462</b>
<b>Deferred Inflows of Resources</b>	<b>5,233,197</b>	<b>3,843,014</b>
<b>Net Position</b>		
Net investment in capital assets	10,196,068	10,082,793
Restricted	6,294,415	5,800,844
Unrestricted (deficit)	(32,473,869)	(30,893,330)
<b>Total Net Position (deficit)</b>	<b>\$ (15,983,386)</b>	<b>\$ (15,009,693)</b>

The \$(32,473,869) in unrestricted net position of all governmental activities represents the accumulated results of all past years' operations. Unrestricted net position decreased by 5.1 percent (\$(1,580,539)) compared to \$(30,893,330). The decrease in Net Position is largely due to the increase in the pension liability.

### Governmental Activities

As reported in the *Statement of Activities* on page 17, the cost of all of our governmental activities this year was \$95,450,972. However, the amount that our taxpayers ultimately financed for these activities through local taxes was only \$40,794,422 because the cost was paid by those who benefited from the programs (\$523,322) or by other governments and organizations who subsidized certain programs with grants and contributions (\$45,069,017). We paid for the remaining "public benefit" portion of our governmental activities with \$8,090,518 in Federal and State funds and other revenues, like interest and general entitlements.

In Table 3, we have presented the cost and net cost of each of the District's largest functions – instruction and instruction-related activities, pupil services, administration, plant services, transfers to other entities, and all other services. As discussed above, net cost shows the financial burden that was placed on the District's taxpayers by each of these functions. Providing this information allows our citizens to consider the cost of each function in comparison to the benefits they believe are provided by that function.

**Table 3**

	Net Cost of Services	
	2018	2017
Instruction	\$ 27,860,821	\$ 29,299,492
Instruction-related activities	4,833,651	4,576,677
Pupil services	2,915,097	2,977,441
Administration	3,062,858	2,805,014
Plant services	5,049,641	4,627,150
Transfers to other entities	5,387,563	5,336,915
All other services	749,002	769,251
<b>Total</b>	<b>\$ 49,858,633</b>	<b>\$ 50,391,940</b>

The decrease to the Net Cost of Services across functions is partially due mostly to the purchase of the Wonders ELA curriculum adoption in 2017 of \$1.4 million. That one time cost in Instruction does not appear in 2018.

## MANAGEMENT'S DISCUSSION AND ANALYSIS JUNE 30, 2018

### THE DISTRICT'S FUNDS

As the District completed this year, our governmental funds reported a combined fund balance of \$19,406,821, which is an increase of \$635,314 from last year. (Table 4)

**Table 4**

	Balances and Activity			
	July 1, 2017	Revenues and Other Financing Sources	Expenditures and Other Financing Uses	June 30, 2018
General Fund	\$ 12,422,430	\$ 51,083,026	\$ 51,156,859	\$ 12,348,597
Special Education				
Pass-Through Fund	-	38,204,951	38,204,274	677
Child Development Fund	-	342,597	342,597	-
Capital Facilities Fund	2,623,152	965,326	250,065	3,338,413
Bond Interest and Redemption Fund	2,158,660	1,529,990	1,664,235	2,024,415
Cafeteria Fund	290,049	1,670,031	1,728,874	231,206
Deferred Maintenance Fund	1,277,216	240,238	53,941	1,463,513
<b>Total</b>	<b>\$ 18,771,507</b>	<b>\$ 94,036,159</b>	<b>\$ 93,400,845</b>	<b>\$ 19,406,821</b>

Included in prior year, numbers updated:

- Our General Fund is our principal operating fund. The fund balance in the General Fund decreased \$73,833 to \$ 12,348,597. This small decrease is due to the net effect of negotiated salary increases and the unanticipated increase in one-time property tax revenue allocations.
- Our Cafeteria Fund decreased \$58,843 to \$231,206 due to expenditures exceeding revenues in the fund.
- Our Deferred Maintenance Fund increased \$186,297 to \$1,463,513 due to the regular transfer of \$225,000 from the General Fund and spending funds on maintenance projects such as asphalt rehabilitation.
- Our Capital Facilities Fund increased \$715,261 to \$3,338,513 due to significant growth in the Goleta area of new housing developments resulting in additional developer fee collections

## MANAGEMENT'S DISCUSSION AND ANALYSIS

**JUNE 30, 2018**

---

### **General Fund Budgetary Highlights**

Over the course of the year, the District revises its budget as it attempts to deal with unexpected changes in revenues and expenditures. The final amendment to the budget was adopted on June 30, 2018. (A schedule showing the District's original and final budget amounts compared with amounts actually paid and received is provided in our annual report on page 64).

Some of the variations between the original and final budget amounts and between the final budget and actual result are explained below:

- Significant revenue revisions made to the 2017-2018 Budget for Local Control Funding Formula revenues were due to increases in actual property taxes received. Original estimates were very conservative and did not include significant amounts of one-time property tax revenues received due to assessment appeal resolution at the account. Final budget adjustments did not include actuals due to unanticipated revenues received from the Goleta Redevelopment Agency above and beyond projections.
- The revenue variance in State Revenues was mainly due to the fact that we did not budget for our portion of the STRS benefit paid for by the State on behalf of our District for our teachers to their retirement accounts.
- Other local sources increased to account for amounts paid from school site PTA amounts that are normally not budgeted until actually received. These are amounts pledged by local PTAs to fund site expenditures to supplement educational programs and staffing.
- Budgeted expenditures increased overall due to the collective bargaining settlement reached during 2017-2018 and to under budgeted amounts for employee benefits.
- Budgeted expenditures for books and supplies were less than originally budgeted and the final budget amounts due to large amounts of unspent allocations of school sites, and one time discretionary dollars not spent by the end of the year.

### CAPITAL ASSET AND DEBT ADMINISTRATION

#### Capital Assets

At June 30, 2018, the District had \$24,199,714 in a broad range of capital assets, including land and construction in process, land improvements, buildings and improvements, and furniture and equipment. This amount represents a net decrease (including additions, deductions, and depreciation) of \$931,301, from last year (Table 5).

**Table 5**

	Governmental Activities	
	2018	2017
Land and construction in process	\$ 1,437,060	\$ 1,437,060
Land improvements	784,864	946,789
Buildings and improvements	21,383,397	22,132,429
Furniture and equipment	594,393	614,737
<b>Total</b>	<b>\$ 24,199,714</b>	<b>\$ 25,131,015</b>

We provide more detailed information regarding capital assets in Note 5 of the financial statements.

#### Long-Term Obligations

At the end of this year, the District had \$15,568,517 in long-term obligations outstanding versus \$16,671,588 last year, a decrease of 6.62 percent. Those obligations consisted of:

**Table 6**

	Governmental Activities	
	2018	2017, as restated
General obligation bonds - net (financed with property taxes)	\$ 14,886,028	\$ 16,009,604
Compensated absences	352,755	287,448
Net other postemployment benefits (OPEB) liability	329,734	374,536
<b>Total</b>	<b>\$ 15,568,517</b>	<b>\$ 16,671,588</b>

We provide more detailed information regarding long-term obligations in Note 9 of the financial statements.

The State limits the amount of general obligation debt that Districts can issue to 1.25 percent of the assessed value of all taxable property within the District's boundaries. The District's outstanding general obligation debt is significantly below statutorily imposed limit.

#### Net Pension Liability (NPL)

At year-end, the District had a net pension liability of \$56,812,717.

## MANAGEMENT'S DISCUSSION AND ANALYSIS

JUNE 30, 2018

---

### SIGNIFICANT ACCOMPLISHMENTS OF FISCAL YEAR 2017-2018 ARE NOTED BELOW:

The Goleta Union School District successfully implemented a new ELA Curriculum districtwide. This \$1.4 million investment in Wonders was implemented across all grade levels and provided books as well as rich online content that students access through the devices provided by the classroom technology plan that provided all students in grades three through six with a Chromebook. We will continue to maintain that level of technology and also accomplished a ratio of 2:1 iPads for grades TK-2.

### ECONOMIC FACTORS AND NEXT YEAR'S BUDGETS AND RATES

In considering the District Budget for the 2017-2018 year, the governing board and management used the following criteria:

The key assumptions in our revenue forecast are:

1. **BASIC AID DISTRICT:** Property tax revenues were projected to increase by three percent due to an estimated rise in assessed valuation and general growth. That growth projection, based on data received from the County Auditor's Office is now 5.2 percent and includes increased allocations from the Goleta Redevelopment Agency.
2. Developer fee collections were originally projected at \$205,000 based on approximate new housing units to be constructed, but year to date collections have far exceeded that amount. We expect the development to slow and developer fee revenue to decline.
3. Federal income will decrease slightly due to the decreased population of qualified students.
4. State income has been increased due to the inclusion of one time funds allocated by the state at \$147.32 per ADA for a total of \$505,738 that was not included in the original budget

Expenditures are based on the following forecasts:

1. Salaries and benefits include amounts budgeted for filled positions and FTE along with mandated movement along salary schedules and do not include any projection of cost for negotiated settlements.
2. Benefits include the increase to the employer contribution for PERS and STRS
3. The Books and Supplies accounts have been increased to account for the purchase of an ELA curriculum adoption of \$1.4 million paid for out of Assigned Fund Balance from prior year EPA funds.

### CONTACTING THE DISTRICT'S FINANCIAL MANAGEMENT

This financial report is designed to provide our citizens, taxpayers, students, and investors and creditors with a general overview of the District's finances and to show the District's accountability for the money it receives. If you have questions about this report or need any additional financial information, contact Conrad Tedeschi, CPA, CPFO, Assistant Superintendent, Fiscal Services, at Goleta Union School District, 401 North Fairview Avenue, Goleta, California, 93117, or e-mail at [ctedeschi@goleta.k12.ca.us](mailto:ctedeschi@goleta.k12.ca.us).

**RECONCILIATION OF THE GOVERNMENTAL FUNDS STATEMENT OF REVENUES, EXPENDITURES, AND CHANGES IN FUND BALANCES TO THE STATEMENT OF ACTIVITIES FOR THE YEAR ENDED JUNE 30, 2018**

---

<b>Total Net Change in Fund Balances - Governmental Funds</b>	<b>\$ 635,314</b>
<b>Amounts Reported for Governmental Activities in the Statement of Activities are Different Because:</b>	
Capital outlays to purchase or build capital assets are reported in governmental funds as expenditures; however, for governmental activities, those costs are shown in the Statement of Net Position and allocated over their estimated useful lives as annual depreciation expenses in the Statement of Activities.	
This is the amount by which depreciation exceeds capital outlays in the period:	
Depreciation expense	\$ (1,064,741)
Capital outlays	<u>150,355</u>
Net Expense Adjustment	(914,386)
Loss on disposal of capital assets is reported in the government-wide Statement of Net Position, but is not recorded in the governmental funds.	(16,915)
In the Statement of Activities, certain operating expenses, such as compensated absences (vacations) are measured by the amounts earned during the year. In the governmental funds, however, expenditures for these items are measured by the amount of financial resources used (essentially, the amounts actually paid). This year vacation earned was more than the amounts used by \$65,307.	(65,307)
In the governmental funds, pension costs are based on employer contributions made to pension plans during the year. However, in the Statement of Activities, pension expense is the net effect of all changes in the deferred outflows, deferred inflows and net pension liability during the year.	(1,714,589)
In the governmental funds, OPEB costs are based on employer contributions made to OPEB plans during the year. However, in the Statement of Activities, OPEB expense is the net effect of all changes in the net OPEB liability during the year.	44,802
Repayment of debt obligations is an expenditure in the governmental funds, but it reduces long-term obligations in the Statement of Net Position and does not affect the Statement of Activities:	
General obligation bonds	1,025,000

**RECONCILIATION OF THE GOVERNMENTAL FUNDS STATEMENT OF REVENUES, EXPENDITURES, AND CHANGES IN FUND BALANCES TO THE STATEMENT OF ACTIVITIES, (Continued) FOR THE YEAR ENDED JUNE 30, 2018**

---

Under the modified basis of accounting used in the governmental funds, expenditures are not recognized for transactions that are not normally paid with expendable available financial resources. In the Statement of Activities, however, which is presented on the accrual basis, expenses and liabilities are reported regardless of when the financial resources are available. This adjustment includes amortization of premium on issuance and deferred charge on refunding.

Amortization of premium on issuance	\$ 98,576	
Amortization of deferred charges on refunding	<u>(79,000)</u>	
Combined Adjustment		\$ 19,576

Interest on long-term obligations in the Statement of Activities differs from the amount reported in the governmental funds because interest is recorded as an expenditure in the funds when it is due, and thus requires the use of current financial resources. In the Statement of Activities, however, interest expense is recognized as the interest accrues, regardless of when it is due. The accrued interest on the general obligation bonds decreased by \$12,812.

## NOTES TO FINANCIAL STATEMENTS

JUNE 30, 2018

---

### NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

#### **Financial Reporting Entity**

The Goleta Union School District (the District) was organized in 1925 under the laws of the State of California. The District operates under a locally elected five-member Board form of government and provides educational services to grades K - 6 as mandated by the State and/or Federal agencies. The District operates nine elementary schools.

A reporting entity is comprised of the primary government, component units, and other organizations that are included to ensure the financial statements are not misleading. The primary government of the District consists of all funds, departments, boards, and agencies that are not legally separate from the District. For Goleta Union School District, this includes general operations, food service, student related activities of the District, and serving as the administrative unit for the Santa Barbara County Special Education Local Plan Area.

#### **Basis of Presentation - Fund Accounting**

The accounting system is organized and operated on a fund basis. A fund is defined as a fiscal and accounting entity with a self-balancing set of accounts, which are segregated for the purpose of carrying on specific activities or attaining certain objectives in accordance with special regulations, restrictions, or limitations. The District's funds are grouped into three broad fund categories: governmental, proprietary, and fiduciary.

**Governmental Funds** Governmental funds are those through which most governmental functions typically are financed. Governmental fund reporting focuses on the sources, uses, and balances of current financial resources. Expendable assets are assigned to the various governmental funds according to the purposes for which they may or must be used. Current liabilities are assigned to the fund from which they will be paid. The difference between governmental fund assets and liabilities is reported as fund balance. The following are the District's major and non-major governmental funds:

#### **Major Governmental Funds**

**General Fund** The General Fund is the chief operating fund for all districts. It is used to account for the ordinary operations of the District. All transactions except those accounted for in another fund are accounted for in this fund.

**Special Education Pass-Through Fund** The Special Education Pass-Through Fund is used by the Administrative Unit of a multi-district Special Education Local Plan Area (SELPA) to account for Special Education revenue passed through to other member districts.

**Child Development Fund** The Child Development Fund is used to account separately for Federal, State, and local revenues to operate child development programs and is to be used only for expenditures for the operation of child development programs.

**Capital Facilities Fund** The Capital Facilities Fund is used primarily to account separately for monies received from fees levied on developers or other agencies as a condition of approval (*Education Code* Sections 17620-17626 and *Government Code* Section 65995 et seq.). Expenditures are restricted to the purposes specified in *Government Code* Sections 65970-65981 or to the items specified in agreements with the developer (*Government Code* Section 6006).

**Bond Interest and Redemption Fund** The Bond Interest and Redemption Fund is used for the repayment of bonds issued for a district (*Education Code* Sections 15125-15262).

### Non-Major Governmental Funds

**Special Revenue Funds** The Special Revenue funds are used to account for the proceeds from specific revenue sources (other than trusts, major capital projects, or debt service) that are restricted or committed to the financing of particular activities, that compose a substantial portion of the inflows of the fund, and that are reasonably expected to continue. Additional resources that are restricted, committed, or assigned to the purpose of the fund may also be reported in the fund.

**Cafeteria Fund** The Cafeteria Fund is used to account separately for Federal, State, and local resources to operate the food service program (*Education Code* Sections 38090-38093) and is used only for those expenditures authorized by the governing board as necessary for the operation of the District's food service program (*Education Code* Sections 38091 and 38100).

**Deferred Maintenance Fund** The Deferred Maintenance Fund is used to account separately for revenues that are restricted or committed for deferred maintenance purposes (*Education Code* Section 17582).

**Fiduciary Funds** Fiduciary funds are used to account for assets held in trustee or agent capacity for others that cannot be used to support the District's own programs. The fiduciary fund category is split into four classifications: pension trust funds, investment trust funds, private-purpose trust funds, and agency funds. The key distinction between trust and agency funds is that trust funds are subject to a trust agreement that affects the degree of management involvement and the length of time that the resources are held.

Trust funds are used to account for the assets held by the District under a trust agreement for individuals, private organizations, or other governments and are therefore, not available to support the District's own programs. The District has no trust funds. Agency funds are custodial in nature (assets equal liabilities) and do not involve measurement of results of operations. Such funds have no equity accounts since all assets are due to individuals or entities at some future time. The District's agency funds account for student body activities (ASB), the employee flexible spending account and payroll withholding clearing.

**Proprietary Funds** Proprietary funds are used to account for activities that are more business-like than government-like in nature. Proprietary funds are generally intended to be self-supporting and are classified as enterprise or internal service. The District has the following proprietary funds:

**Internal Service Fund** Internal service funds may be used to account for goods or services provided to other funds of the District in return for a fee to cover the cost of operations. The District operates a warehouse revolving fund that is accounted for as an internal service fund.

### **Basis of Accounting - Measurement Focus**

**Government-Wide Financial Statements** The government-wide financial statements are prepared using the economic resources measurement focus and the accrual basis of accounting. This is the same approach used in the preparation of the proprietary fund financial statements, but differs from the manner in which governmental fund financial statements are prepared.

The government-wide statement of activities presents a comparison between expenses, both direct and indirect, of the District and for each governmental function, and excludes fiduciary activity. Direct expenses are those that are specifically associated with a service, program, or department and are therefore, clearly identifiable to a particular function. The District does not allocate indirect expenses to functions in the *Statement of Activities*. Program revenues include charges paid by the recipients of the goods or services offered by the programs and grants and contributions that are restricted to meeting the operational or capital requirements of a particular program. Revenues that are not classified as program revenues are presented as general revenues. The comparison of program revenues and expenses identifies the extent to which each program or business segment is self-financing or draws from the general revenues of the District. Eliminations have been made to minimize the double counting of internal activities.

Net position should be reported as restricted when constraints placed on net position are either externally imposed by creditors (such as through debt covenants), grantors, contributors, or laws or regulations of other governments or imposed by law through constitutional provisions or enabling legislation. The net position restricted for other activities results from special revenue funds, the internal service fund, and the restrictions on their use.

**Fund Financial Statements** Fund financial statements report detailed information about the District. The focus of governmental fund financial statements is on major funds rather than reporting funds by type. Each major fund is presented in a separate column. Non-major funds are aggregated and presented in a single column.

**Governmental Funds** All governmental funds are accounted for using a flow of current financial resources measurement focus and the modified accrual basis of accounting. With this measurement focus, only current assets and current liabilities generally are included on the balance sheet. The statement of revenues, expenditures, and changes in fund balances reports on the sources (revenues and other financing sources) and uses (expenditures and other financing uses) of current financial resources. This approach differs from the manner in which the governmental activities of the government-wide financial statements are prepared. Governmental fund financial statements therefore include reconciliation with brief explanations to better identify the relationship between the government-wide financial statements and the statements for the governmental funds on a modified accrual basis of accounting and the current financial resources measurement focus. Under this basis, revenues are recognized in the accounting period in which they become measurable and available. Expenditures are recognized in the accounting period in which the fund liability is incurred, if measurable.

**Proprietary Funds** Proprietary funds are accounted for using the flow of economic resources measurement focus and the accrual basis of accounting. All assets and all liabilities associated with the operation of this fund are included in the statement of net position. The statement of changes in fund net position presents increases (revenues) and decreases (expenses) in net total assets. The statement of cash flows provides information about how the District finances and meets the cash flow needs of its proprietary fund.

---

**Fiduciary Funds** Fiduciary funds are accounted for using the flow of economic resources measurement focus and the accrual basis of accounting. Fiduciary funds are excluded from the government-wide statements because they do not represent resources of the District.

**Revenues – Exchange and Non-Exchange Transactions** Revenue resulting from exchange transactions, in which each party gives and receives essentially equal value, is recorded on the accrual basis when the exchange takes place. On a modified accrual basis, revenue is recorded in the fiscal year in which the resources are measurable and become available. Available means that the resources will be collected within the current fiscal year or are expected to be collected soon enough thereafter to be used to pay liabilities of the current fiscal year. For the District, available generally means expected to be received within ninety days of fiscal year-end. However, to achieve comparability of reporting among California school districts and so as not to distort normal revenue patterns, with specific respect to reimbursement grants and corrections to State-aid apportionments, the California Department of Education has defined available for school districts as collectible within one year.

The following revenue sources are considered to be both measurable and available at fiscal year-end: State apportionments, interest, certain grants, and other local sources.

Non-exchange transactions, in which the District receives value without directly giving equal value in return, include property taxes, certain grants, entitlements, and donations. Revenue from property taxes is recognized in the fiscal year in which the taxes are received. Revenue from certain grants, entitlements, and donations is recognized in the fiscal year in which all eligibility requirements have been satisfied. Eligibility requirements include time and purpose requirements. On a modified accrual basis, revenue from non-exchange transactions must also be available before it can be recognized.

**Unearned Revenue** Unearned revenue arises when potential revenue does not meet both the "measurable" and "available" criteria for recognition in the current period or when resources are received by the District prior to the incurrence of qualifying expenditures. In subsequent periods, when both revenue recognition criteria are met, or when the District has a legal claim to the resources, the liability for unearned revenue is removed from the balance sheet and revenue is recognized.

Certain grants received before the eligibility requirements are met are recorded as unearned revenue. On the governmental fund financial statements, receivables that will not be collected within the available period are also recorded as unearned revenue.

**Expenses/Expenditures** On the accrual basis of accounting, expenses are recognized at the time they are incurred. The measurement focus of governmental fund accounting is on decreases in net financial resources (expenditures) rather than expenses. Expenditures are generally recognized in the accounting period in which the related fund liability is incurred, if measurable, and typically paid within 90 days. Principal and interest on general long-term obligations, which has not matured, are recognized when paid in the governmental funds as expenditures. Allocations of costs, such as depreciation and amortization, are not recognized in the governmental funds but are recognized in the government-wide statements.

### **Cash and Cash Equivalents**

The District's cash and cash equivalents are considered to be cash on hand, demand deposits, and short-term investments with original maturities of three months or less from the date of acquisition. Cash equivalents also include cash with county treasury balances for purposes of the statement of cash flows.

# GOLETA UNION SCHOOL DISTRICT

## NOTES TO FINANCIAL STATEMENTS

JUNE 30, 2018

---

### **Investments**

Investments held at June 30, 2018, with original maturities greater than one year are stated at fair value. Fair value is estimated based on quoted market prices at year-end. All investments not required to be reported at fair value are stated at cost or amortized cost. Fair values of investments in the Santa Barbara County investment pool are determined by the program sponsor.

### **Prepaid Expenditures (Expenses)**

Prepaid expenditures (expenses) represent amounts paid in advance of receiving goods or services. The District has the option of reporting an expenditure in governmental and agency funds for prepaid items either when purchased or during the benefiting period. The District has chosen to report the expenditures when paid.

### **Stores Inventories**

Inventories consist of expendable food and supplies held for consumption. Inventories are stated at cost, on the weighted average basis. The costs of inventory items are recorded as expenditures in the governmental funds and as expenses in the proprietary funds when used.

### **Capital Assets and Depreciation**

The accounting and reporting treatment applied to the capital assets associated with a fund are determined by its measurement focus. Capital assets are long-lived assets of the District. The District maintains a capitalization threshold of \$5,000. The District does not possess any infrastructure. Improvements are capitalized; the costs of normal maintenance and repairs that do not add to the value of the asset or materially extend an asset's life are not capitalized, but are expensed as incurred.

When purchased, such assets are recorded as expenditures in the governmental funds and capitalized in the government-wide statement of net position. The valuation basis for general capital assets are historical cost, or where historical cost is not available, estimated historical cost based on replacement cost. Donated capital assets are capitalized at estimated fair market value on the date donated, if applicable.

Depreciation of capital assets is computed and recorded by the straight-line method. Estimated useful lives of the various classes of depreciable capital assets are as follows: buildings, 20 to 50 years; improvements/infrastructure, 5 to 50 years; equipment, 2 to 15 years.

### **Interfund Balances**

On fund financial statements, receivables and payables resulting from short-term interfund loans are classified as "interfund receivables/payables." These amounts are eliminated in the governmental activities column of the Statement of Net Position.

### **Operating Revenues and Expenses**

Operating revenues are those revenues that are generated directly from the primary activity of the proprietary funds. For the District, these revenues are charges to other funds. Operating expenses are necessary costs incurred to provide the goods or service that is the primary activity of the fund. All revenues and expenses not meeting this definition are reported as nonoperating revenues and expenses.

# GOLETA UNION SCHOOL DISTRICT

## NOTES TO FINANCIAL STATEMENTS

---

### **Compensated Absences**

Compensated absences are accrued as a liability and reported on the government-wide statement of net position. For governmental funds, the current portion of unpaid compensated absences is the amount that is normally expected to be paid using expendable available financial resources. These amounts are recorded in the accounts payable in the fund from which the employees who have accumulated leave are paid.

Sick leave is accumulated without limit for each employee at the rate of one day for each month worked. Leave with pay is provided when employees are absent for health reasons; however, the employees do not gain a vested right to accumulated sick leave. Employees are never paid for any sick leave balance at termination of employment or any other time. Therefore, the value of accumulated sick leave is not recognized as a liability in the District's financial statements. However, credit for unused sick leave is applicable to all classified school members who retire after January 1, 1999. At retirement, each member will receive .004 year of service credit for each day of unused sick leave. Credit for unused sick leave is applicable to all certificated employees and is determined by dividing the number of unused sick days by the number of base service days required to complete the last school year, if employed full-time.

### **Debt Issuance Costs, Premiums, and Discounts**

In the government-wide financial statements and in the proprietary fund type, long-term obligations are reported as liabilities in the applicable governmental activities and proprietary fund Statement of Net Position. Debt premiums and discounts, as well as issuance costs related to prepaid insurance costs, are amortized over the life of the bonds using the straight-line method.

In the fund financial statements, governmental funds recognize bond premiums and discounts as other financing sources and uses, respectively, and bond issuance costs as debt service expenditures. Issuance costs, whether or not withheld from the actual debt proceeds received, are reported as debt service expenditures.

### **Accrued Liabilities and Long-Term Obligations**

All payables, accrued liabilities, and long-term obligations are reported in the government-wide and proprietary fund financial statements. In general, governmental fund payables and accrued liabilities that, once incurred, are paid in a timely manner and in full from current financial resources are reported as obligations of the funds.

However, claims and judgments, compensated absences, special termination benefits, and contractually required pension contributions that will be paid from governmental funds are reported as a liability in the fund financial statements only to the extent that they are due for payment during the current year. Bonds, capital leases, and long-term loans are recognized as liabilities in the governmental fund financial statements when due.

### **Deferred Outflows/Inflows of Resources**

In addition to assets, the Statement of Net Position also reports deferred outflows of resources. This separate financial statement element represents a consumption of net position that applies to a future period and so will not be recognized as an expense or expenditure until then. The District reports deferred outflows of resources for deferred charges on refunding of debt, and for pension related items.

# GOLETA UNION SCHOOL DISTRICT

## NOTES TO FINANCIAL STATEMENTS

JUNE 30, 2018

---

In addition to liabilities, the Statement of Net Position reports a separate section for deferred inflows of resources. This separate financial statement element represents an acquisition of net position that applies to a future period and so will not be recognized as revenue until then. The District reports deferred inflows of resources for pension related items.

### **Pensions**

For purposes of measuring the net pension liability and deferred outflows/inflows of resources related to pensions, and pension expense, information about the fiduciary net position of the California State Teachers Retirement System (CalSTRS) and the California Public Employees' Retirement System (CalPERS) plan for schools (Plans) and additions to/deductions from the Plans' fiduciary net position have been determined on the same basis as they are reported by CalSTRS and CalPERS. For this purpose, benefit payments (including refunds of employee contributions) are recognized when due and payable in accordance with the benefit terms. Member contributions are recognized in the period in which they are earned. Investments are reported at fair value.

### **Postemployment Benefits Other Than Pensions (OPEB)**

For purposes of measuring the net OPEB liability related to OPEB, and OPEB expense, information about the fiduciary net position of the CalSTRS Medicare Premium Payment (MPP) Program and additions to/deductions from the MPP's fiduciary net position have been determined on the same basis as they are reported by the MPP. For this purpose, the MPP recognizes benefit payments when due and payable in accordance with the benefit terms. Investments are reported at fair value, except for money market investments and participating interest-earning investment contracts that have a maturity at the time of purchase of one year or less, which are reported at cost.

### **Fund Balances - Governmental Funds**

As of June 30, 2018, fund balances of the governmental funds are classified as follows:

**Nonspendable** - amounts that cannot be spent either because they are in nonspendable form or because they are legally or contractually required to be maintained intact.

**Restricted** - amounts that can be spent only for specific purposes because of constitutional provisions or enabling legislation or because of constraints that are externally imposed by creditors, grantors, contributors, or the laws or regulations of other governments.

**Assigned** - amounts that do not meet the criteria to be classified as restricted or committed but that are intended to be used for specific purposes. Under the District's adopted policy, only the governing board or chief business officer/assistant superintendent of business services may assign amounts for specific purposes.

**Unassigned** - all other spendable amounts.

# GOLETA UNION SCHOOL DISTRICT

## NOTES TO FINANCIAL STATEMENTS

JUNE 30, 2018

---

### **Spending Order Policy**

When an expenditure is incurred for purposes for which both restricted and unrestricted fund balance is available, the District considers restricted funds to have been spent first. When an expenditure is incurred for which committed, assigned, or unassigned fund balances are available, the District considers amounts to have been spent first out of committed funds, then assigned funds, and finally unassigned funds, as needed, unless the governing board has provided otherwise in its commitment or assignment actions.

### **Minimum Fund Balance Policy**

The governing board adopted a minimum fund balance policy for the General Fund in order to protect the District against revenue shortfalls or unpredicted on-time expenditures. The policy requires a Reserve for Economic Uncertainties consisting of unassigned amounts equal to no less than three percent of General Fund expenditures and other financing uses.

### **Net Position**

Net position represents the difference between assets and liabilities. Net position net of investment in capital assets consists of capital assets, net of accumulated depreciation, reduced by the outstanding balances of any borrowings used for the acquisition, construction, or improvement of those assets. Net position is reported as restricted when there are limitations imposed on their use either through the enabling legislation adopted by the District or through external restrictions imposed by creditors, grantors, or laws or regulations of other governments. The District first applies restricted resources when an expense is incurred for purposes for which both restricted and unrestricted net position is available. The government-wide financial statements report \$6,294,415 of restricted net position.

### **Interfund Activity**

Exchange transactions between funds are reported as revenues in the seller funds and as expenditures/expenses in the purchaser funds. Flows of cash or goods from one fund to another without a requirement for repayment are reported as interfund transfers. Interfund transfers are reported as other financing sources/uses in governmental funds. Repayments from funds responsible for particular expenditures/expenses to the funds that initially paid for them are not presented on the financial statements. Interfund transfers are eliminated in the governmental columns of the Statement of Activities.

### **Estimates**

The preparation of the financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the amounts reported in the financial statements and accompanying notes. Actual results may differ from those estimates.

### Property Tax

Secured property taxes attach as an enforceable lien on property as of January 1. Taxes are payable in two installments on November 1 and February 1 and become delinquent on December 10 and April 10, respectively. Unsecured property taxes are payable in one installment on or before August 31. The County of Santa Barbara bills and collects the taxes on behalf of the District. Local property tax revenues are recorded when received.

### Change in Accounting Principles

In June 2015, the GASB issued Statement No. 75, *Accounting and Financial Reporting for Postemployment Benefits Other Than Pensions*. The primary objective of this Statement is to improve accounting and financial reporting by State and local governments for postemployment benefits other than pensions (other postemployment benefits or OPEB). It also improves information provided by State and local governmental employers about financial support for OPEB that is provided by other entities. This Statement results from a comprehensive review of the effectiveness of existing standards of accounting and financial reporting for all postemployment benefits (pensions and OPEB) with regard to providing decision-useful information, supporting assessments of accountability and inter-period equity, and creating additional transparency.

This Statement replaces the requirements of Statements No. 45, *Accounting and Financial Reporting by Employers for Postemployment Benefits Other Than Pensions*, as amended, and No. 57, *OPEB Measurements by Agent Employers and Agent Multiple-Employer Plans*, for OPEB. Statement No. 74, *Financial Reporting for Postemployment Benefit Plans Other Than Pension Plans*, establishes new accounting and financial reporting requirements for OPEB plans.

The District has implemented the provisions of this Statement as of June 30, 2018.

In March 2017, the GASB issued Statement No. 85, *Omnibus 2017*. The objective of this Statement is to address practice issues that have been identified during implementation and application of certain GASB statements. This Statement addresses a variety of topics including issues related to blending component units, goodwill, fair value measurement and application, and postemployment benefits (pensions and other postemployment benefits [OPEB]). Specifically, this Statement addresses the following topics:

- Blending a component unit in circumstances in which the primary government is a business-type activity that reports in a single column for financial statement presentation;
- Reporting amounts previously reported as goodwill and "negative" goodwill;
- Classifying real estate held by insurance entities;
- Measuring certain money market investments and participating interest-earning investment contracts at amortized cost;
- Timing of the measurement of pension or OPEB liabilities and expenditures recognized in financial statements prepared using the current financial resources measurement focus;
- Recognizing on behalf payments for pensions or OPEB in employer financial statements;
- Presenting payroll-related measures in required supplementary information for purposes of reporting by OPEB plans and employers that provide OPEB;

- Classifying employer-paid member contributions for OPEB;
- Simplifying certain aspects of the alternative measurement method for OPEB; and
- Accounting and financial reporting for OPEB provided through certain multiple-employer defined benefit OPEB plans.

The District has implemented the provisions of this Statement as of June 30, 2018.

In May 2017, the GASB issued Statement No. 86, *Certain Debt Extinguishment Issues*. The primary objective of this Statement is to improve consistency in accounting and financial reporting for in-substance defeasance of debt by providing guidance for transactions in which cash and other monetary assets acquired with only existing resources—resources other than the proceeds of refunding debt—are placed in an irrevocable trust for the sole purpose of extinguishing debt. This Statement also improves accounting and financial reporting for prepaid insurance on debt that is extinguished and notes to financial statements for debt that is defeased in substance.

The District has implemented the provisions of this Statement as of June 30, 2018.

### **New Accounting Pronouncements**

In November 2016, the GASB issued Statement No. 83, *Certain Asset Retirement Obligations*. This Statement addresses accounting and financial reporting for certain asset retirement obligations (AROs). An ARO is a legally enforceable liability associated with the retirement of a tangible capital asset. A government that has legal obligations to perform future asset retirement activities related to its tangible capital assets should recognize a liability based on the guidance in this Statement.

This Statement establishes criteria for determining the timing and pattern of recognition of a liability and a corresponding deferred outflow of resources for AROs. This Statement requires that recognition occur when the liability is both incurred and reasonably estimable. The determination of when the liability is incurred should be based on the occurrence of external laws, regulations, contracts, or court judgments, together with the occurrence of an internal event that obligates a government to perform asset retirement activities. Laws and regulations may require governments to take specific actions to retire certain tangible capital assets at the end of the useful lives of those capital assets, such as decommissioning nuclear reactors and dismantling and removing sewage treatment plants. Other obligations to retire tangible capital assets may arise from contracts or court judgments. Internal obligating events include the occurrence of contamination, placing into operation a tangible capital asset that is required to be retired, abandoning a tangible capital asset before it is placed into operation, or acquiring a tangible capital asset that has an existing ARO.

The requirements of this Statement are effective for reporting periods beginning after June 15, 2018. Early implementation is encouraged.

In January 2017, the GASB issued Statement No. 84, *Fiduciary Activities*. The objective of this Statement is to improve guidance regarding the identification of fiduciary activities for accounting and financial reporting purposes and how those activities should be reported.

# GOLETA UNION SCHOOL DISTRICT

## NOTES TO FINANCIAL STATEMENTS

**JUNE 30, 2018**

---

This Statement establishes criteria for identifying fiduciary activities of all State and local governments. The focus of the criteria generally is on (1) whether a government is controlling the assets of the fiduciary activity and (2) the beneficiaries with whom a fiduciary relationship exists. Separate criteria are included to identify fiduciary component units and postemployment benefit arrangements that are fiduciary activities.

The requirements of this Statement are effective for reporting periods beginning after December 15, 2018. Early implementation is encouraged.

In June 2017, the GASB issued Statement No. 87, *Leases*. The objective of this Statement is to better meet the information needs of financial statement users by improving accounting and financial reporting for leases by governments. This Statement increases the usefulness of governments' financial statements by requiring recognition of certain lease assets and liabilities for leases that previously were classified as operating leases and recognized as inflows of resources or outflows of resources based on the payment provisions of the contract. It establishes a single model for lease accounting based on the foundational principle that leases are financings of the right to use an underlying asset. Under this Statement, a lessee is required to recognize a lease liability and an intangible right-to-use lease asset, and a lessor is required to recognize a lease receivable and a deferred inflow of resources, thereby enhancing the relevance and consistency of information about governments' leasing activities.

The requirements of this Statement are effective for the reporting periods beginning after December 15, 2019. Early implementation is encouraged.

In April 2018, the GASB issued Statement No. 88, *Certain Disclosures Related to Debt, including Direct Borrowings and Direct Placements*. The primary objective of this Statement is to improve the information that is disclosed in notes to government financial statements related to debt, including direct borrowings and direct placements. It also clarifies which liabilities governments should include when disclosing information related to debt.

This Statement defines debt for purposes of disclosure in notes to financial statements as a liability that arises from a contractual obligation to pay cash (or other assets that may be used in lieu of cash) in one or more payments to settle an amount that is fixed at the date the contractual obligation is established.

This Statement requires that additional essential information related to debt be disclosed in notes to financial statements, including unused lines of credit; assets pledged as collateral for the debt; and terms specified in debt agreements related to significant events of default with finance-related consequences, significant termination events with finance-related consequences, and significant subjective acceleration clauses.

For notes to financial statements related to debt, this Statement also requires that existing and additional information be provided for direct borrowings and direct placements of debt separately from other debt.

The requirements of this Statement are effective for reporting periods beginning after June 15, 2018. Early implementation is encouraged.

In June 2018, the GASB issued Statement No. 89, *Accounting for Interest Cost Incurred Before the End of a Construction Period*. The objectives of this Statement are (1) to enhance the relevance and comparability of information about capital assets and the cost of borrowing for a reporting period and (2) to simplify accounting for interest cost incurred before the end of a construction period.

# GOLETA UNION SCHOOL DISTRICT

## NOTES TO FINANCIAL STATEMENTS

JUNE 30, 2018

---

This Statement establishes accounting requirements for interest cost incurred before the end of a construction period. Such interest cost includes all interest that previously was accounted for in accordance with the requirements of paragraphs 5–22 of Statement No. 62, *Codification of Accounting and Financial Reporting Guidance Contained in Pre-November 30, 1989 FASB and AICPA Pronouncements*, which are superseded by this Statement. This Statement requires that interest cost incurred before the end of a construction period be recognized as an expense in the period in which the cost is incurred for financial statements prepared using the economic resources measurement focus. As a result, interest cost incurred before the end of a construction period will not be included in the historical cost of a capital asset reported in a business-type activity or enterprise fund.

This Statement also reiterates that in financial statements prepared using the current financial resources measurement focus, interest cost incurred before the end of a construction period should be recognized as an expenditure on a basis consistent with governmental fund accounting principles.

The requirements of this Statement are effective for reporting periods beginning after December 15, 2019. Earlier application is encouraged. The requirements of this Statement should be applied prospectively.

### NOTE 2 - DEPOSITS AND INVESTMENTS

#### Summary of Deposits and Investments

Deposits and investments as of June 30, 2018, are classified in the accompanying financial statements as follows:

Governmental activities	\$ 18,801,398
Fiduciary funds	1,802,264
Total Deposits and Investments	<u>\$ 20,603,662</u>

Deposits and investments as of June 30, 2018, consist of the following:

Cash on hand and in banks	\$ 781,057
Cash in revolving	5,500
Investments	19,817,105
Total Deposits and Investments	<u>\$ 20,603,662</u>

#### Policies and Practices

The District is authorized under *California Government Code* to make direct investments in local agency bonds, notes, or warrants within the State; U.S. Treasury instruments; registered State warrants or treasury notes; securities of the U.S. Government, or its agencies; bankers acceptances; commercial paper; certificates of deposit placed with commercial banks and/or savings and loan companies; repurchase or reverse repurchase agreements; medium term corporate notes; shares of beneficial interest issued by diversified management companies, certificates of participation, obligations with first priority security; and collateralized mortgage obligations.

## NOTES TO FINANCIAL STATEMENTS

**JUNE 30, 2018**

**Investment in County Treasury** - The District is considered to be an involuntary participant in an external investment pool as the District is required to deposit all receipts and collections of monies with their County Treasurer (*Education Code* Section 41001). The fair value of the District's investment in the pool is reported in the accounting financial statements at amounts based upon the District's pro-rata share of the fair value provided by the County Treasurer for the entire portfolio (in relation to the amortized cost of that portfolio). The balance available for withdrawal is based on the accounting records maintained by the County Treasurer, which is recorded on the amortized cost basis.

### General Authorizations

Local Agency Investment Fund (LAIF)	N/A	None	None
Joint Powers Authority Pools	N/A	None	None

### Interest Rate Risk

Interest rate risk is the risk that changes in market interest rates will adversely affect the fair value of an investment. Generally, the longer the maturity of an investment, the greater the sensitivity of its fair value to changes in market interest rates. The District does not have a formal investment policy that limits investment maturities as a means of managing its exposure to fair value losses arising from increasing interest rates. The District manages its exposure to interest rate risk by holding the majority of its investments in the Santa Barbara County Treasury Investment Pool. The Pool purchases shorter term investments and attempts to time cash flows from maturities so that a portion of the portfolio is maturing or coming close to maturity evenly over time as necessary to provide the cash flow and liquidity needed for operations. The District maintains an investment of \$19,817,105 with the Santa Barbara County Treasury Investment Pool. The average weighted maturity for this pool was 455 days.

### Credit Risk

Credit risk is the risk that an issuer of an investment will not fulfill its obligation to the holder of the investment. This is measured by the assignment of a rating by a nationally recognized statistical rating organization. The investment with the Santa Barbara County Treasury Investment Pool is currently not rated, nor is required to be rated.

### Custodial Credit Risk - Deposits

This is the risk that in the event of a bank failure, the District's deposits may not be returned to it. The District does not have a policy for custodial credit risk for deposits. However, the *California Government Code* requires that a financial institution secure deposits made by State or local governmental units by pledging securities in an undivided collateral pool held by a depository regulated under State law (unless so waived by the governmental unit). The market value of the pledged securities in the collateral pool must equal at least 110 percent of the total amount deposited by the public agency. California law also allows financial institutions to secure public deposits by pledging first trust deed mortgage notes having a value of 150 percent of the secured public deposits and letters of credit issued by the Federal Home Loan Bank of San Francisco having a value of 105 percent of the secured deposits. As of June 30, 2018, a portion of the District's bank balance of \$810,935 was exposed to custodial credit risk because it was not fully insured.

### NOTE 3 - FAIR VALUE MEASUREMENTS

The District categorizes the fair value measurements of its investments based on the hierarchy established by generally accepted accounting principles. The fair value hierarchy, which has three levels, is based on the valuation inputs used to measure an asset's fair value. The following provides a summary of the hierarchy used to measure fair value:

Level 1 - Quoted prices in active markets for identical assets that the District has the ability to access at the measurement date. Level 1 assets may include debt and equity securities that are traded in an active exchange market and that are highly liquid and are actively traded in over-the-counter markets.

Level 2 - Observable inputs other than Level 1 prices such as quoted prices for similar assets in active markets, quoted prices for identical or similar assets in markets that are not active, or other inputs that are observable, such as interest rates and curves observable at commonly quoted intervals, implied volatilities, and credit spreads. For financial reporting purposes, if an asset has a specified term, a Level 2 input is required to be observable for substantially the full term of the asset.

Level 3 - Unobservable inputs should be developed using the best information available under the circumstances, which might include the District's own data. The District should adjust that data if reasonably available information indicates that other market participants would use different data or certain circumstances specific to the District are not available to other market participants.

**JUNE 30, 2018**

Uncategorized - Investments in the Santa Barbara County Treasury Investment Pool are not measured using the input levels above because the District's transactions are based on a stable net asset value per share. All contributions and redemptions are transacted at \$1.00 net asset value per share.

### Compensated Absences

Compensated absences (accumulated unpaid employee vacation) for the District at June 30, 2018, amounted to \$352,755.

### Net Other Postemployment Benefits (OPEB) Liability

For the fiscal year ended June 30, 2018, the District reported net OPEB liability and OPEB expense for the following plans:

OPEB Plan	Net OPEB Liability	OPEB Expense
Medicare Premium Payment (MPP) Program	\$ 329,734	\$ (44,802)

The details of this plan is as follows:

### Medicare Premium Payment (MPP) Program

#### Plan Description

The Medicare Premium Payment (MPP) Program is administered by the California State Teachers' Retirement System (CalSTRS). The MPP Program is a cost-sharing multiple-employer other postemployment benefit plan (OPEB) established pursuant to Chapter 1032, Statutes 2000 (SB 1435). CalSTRS administers the MPP Program through the Teachers' Health Benefits Fund (THBF).

A full description of the MPP Program regarding benefit provisions, assumptions (for funding, but not accounting purposes), and membership information is listed in the June 30, 2016 annual actuarial valuation report, Medicare Premium Payment Program Actuarial Valuation. This report and CalSTRS audited financial information are publicly available reports that can be found on the CalSTRS website under Publications at: <http://www.calstrs.com/member-publications>.

#### Benefits Provided

The MPP Program pays Medicare Part A premiums and Medicare Parts A and B late enrollment surcharges for eligible members of the State Teachers Retirement Plan (STRP) Defined Benefit (DB) Program who were retired or began receiving a disability allowance prior to July 1, 2012 and were not eligible for premium free Medicare Part A. The payments are made directly to the Centers for Medicare and Medicaid Services (CMS) on a monthly basis.

The MPP Program is closed to new entrants as members who retire after July 1, 2012, are not eligible for coverage under the MPP Program.

The MPP Program is funded on a pay-as-you go basis from a portion of monthly District benefit payments. In accordance with California *Education Code* Section 25930, benefit payments that would otherwise be credited to the DB Program each month are instead credited to the MPP Program to fund monthly program and administrative costs. Total redirections to the MPP Program are monitored to ensure that total incurred costs do not exceed the amount initially identified as the cost of the program.

## NOTES TO FINANCIAL STATEMENTS

JUNE 30, 2018

---

### Net OPEB Liability and OPEB Expense

At June 30, 2018, the District reported a liability of \$329,734 for its proportionate share of the net OPEB liability for the MPP Program. The net OPEB liability was measured as of June 30, 2016, and the total OPEB liability used to calculate the net OPEB liability was determined by an actuarial valuation as of that date. The District's proportion of the net OPEB liability was based on a projection of the District's long-term share of contributions to the OPEB Plan relative to the projected contributions of all participating school districts, actuarially determined. The District's proportionate share for the measurement period June 30, 2017 and June 30, 2016, respectively, was 0.0784 percent, and 0.0800 percent, resulting in a net decrease in the proportionate share of 0.0016 percent.

For the year ended June 30, 2018, the District recognized OPEB expense of \$(44,802).

### Actuarial Methods and Assumptions

The total OPEB liability for the MPP Program as of June 30, 2016, was determined based on a financial reporting actuarial valuation that used the June 30, 2016 assumptions presented in the table below. The June 30, 2017 total OPEB liability was determined by applying update procedures to the financial reporting actuarial valuation as of June 30, 2016, and rolling forward the total OPEB liability to June 30, 2017, using the assumptions listed in the following table:

Measurement Date	June 30, 2017	June 30, 2016
Valuation Date	June 30, 2016	June 30, 2016
Experience Study	July 1, 2010 through June 30, 2016	July 1, 2010 through June 30, 2015
Actuarial Cost Method	Entry age normal	Entry age normal
Investment Rate of Return	3.58%	2.85%
Medicare Part A Premium Cost Trend Rate	3.70%	3.70%
Medicare Part B Premium Cost Trend Rate	4.10%	4.10%

For the valuation as of June 30, 2016, CalSTRS used custom mortality tables based on RP2000 Series tables issued by the Society of Actuaries, adjusted to fit CalSTRS specific experience through June 30, 2015. For the valuation as of June 30, 2017, CalSTRS changed the mortality assumptions based on the July 1, 2010 through June 30, 2015, experience study adopted by the board in February 2017. CalSTRS now uses a generational mortality assumption, which involves the use of a base mortality table and projection scales to reflect expected annual reductions in mortality rates at each age, resulting in increases in life expectancies each year into the future. The base mortality tables are CalSTRS custom tables derived to best fit the patterns of mortality among the members. The projection scale was set equal to 110 percent of the ultimate improvement factor from the Mortality Improvement Scale (MP-2016) table, issued by the Society of Actuaries.

Assumptions were made about future participation (enrollment) into the MPP Program because CalSTRS is unable to determine which members not currently participating meet all eligibility criteria for enrollment in the future. Assumed enrollment rates were derived based on past experience and are stratified by age with the probability of enrollment diminishing as the members' age increases. This estimated enrollment rate was then applied to the population of members who may meet criteria necessary for eligibility and are not currently enrolled in the MPP Program. Based on this, the estimated number of future enrollments used in the financial reporting valuation was 571 or an average of 0.32 percent of the potentially eligible population (177,763).

**GOLETA UNION SCHOOL DISTRICT**

**NOTES TO FINANCIAL STATEMENTS**

**JUNE 30, 2018**

---

The MPP Program is funded on a pay-as-you-go basis with contributions generally being made at the same time and in the same amount as benefit payments and expenses coming due. Any funds within the MPP Program as of June 30, 2017 and 2016, were to manage differences between estimated and actual amounts to be paid and were invested in the Surplus Money Investment Fund, which is a pooled investment program administered by the State Treasurer.

**Discount Rate**

The discount rate used to measure the total OPEB liability as of June 30, 2017 and 2016 was 3.58 percent and 2.85 percent, respectively. The MPP Program is funded on a pay-as-you-go basis as described in Note 1, and under the pay-as-you-go method, the OPEB Plan's fiduciary net position was not projected to be sufficient to make projected future benefit payments. Therefore, a discount rate of 3.58 percent and 2.85 percent, which is the Bond Buyer 20-Bond GO Index from Bondbuyer.com as of June 30, 2017 and 2016, respectively, was applied to all periods of projected benefit payments to measure the total OPEB liability.

*Sensitivity of the District's Proportionate Share of the Net OPEB Liability to Changes in the Discount Rate*

The following presents the District's proportionate share of the net OPEB liability calculated using the current discount rate, as well as what the net pension liability would be if it were calculated using a discount rate that is one percent lower or higher than the current rate:

Discount Rate	Net OPEB Liability
1% decrease (2.58%)	\$ 365,039
Current discount rate (3.58%)	329,734
1% increase (4.58%)	295,393

*Sensitivity of the District's Proportionate Share of the Net OPEB Liability to Changes in the Medicare Costs Trend Rates*

The following presents the District's proportionate share of the net OPEB liability calculated using the current discount rate, as well as what the net pension liability would be if it were calculated using Medicare costs trend rates that are one percent lower or higher than the current rates:

Medicare Costs Trend Rate	Net OPEB Liability
1% decrease (2.7% Part A and 3.1% Part B)	\$ 297,966
Current Medicare costs trend rate (3.7% Part A and 4.1% Part B)	329,734

The District is exposed to various risks of losses related to torts; thefts of, damage to, and destruction of assets; errors and omissions; injuries to employees; and natural disasters.

The District's risk management activities are recorded in the General Fund. The District participates in the various public entity risk pools for health, workers' compensation, and property and liability risks. As of June 30, 2018, information was not available that indicates that the District has an outstanding obligation for any calculated deficits. See Note 14 for additional information regarding the pools.

## NOTES TO FINANCIAL STATEMENTS

JUNE 30, 2018

---

### Employee Medical Benefits

For fiscal year 2018, the district participated in the Self-Insured Schools of California III (SISC III), a public entity risk pool. The intent of SISC III is to achieve lower medical costs for member districts by virtue of its grouping and representation with other participants in SISC III.

### Workers' Compensation

For fiscal year 2018, the District participated in the Santa Barbara Self-Insurance Program for Employees (SBSIPE). The intent of the SBSIPE is to achieve the benefit of reduced workers' compensation costs by virtue of its grouping and representation with other participants in the SBSIPE. The workers' compensation rate is common for all districts in the SBSIPE, with each member's experience used to calculate its actual applied rate. Participation in the SBSIPE is limited to districts that can meet the SBSIPE's selection criteria.

### Property and Liability

For fiscal year 2018, the District participated in the Self-Insured Schools of California II (SISC II) for property and liability insurance coverage. Settled claims have not exceeded coverage limits in any of the past three years. There has not been a significant reduction in coverage from the prior year.

## NOTE 12 - EMPLOYEE RETIREMENT SYSTEMS

Qualified employees are covered under multiple-employer defined benefit pension plans maintained by agencies of the State of California. Academic employees are members of the California State Teachers' Retirement System (CalSTRS) and classified employees are members of the California Public Employees' Retirement System (CalPERS).

For the fiscal year ended June 30, 2018, the District reported net pension liabilities, deferred outflows of resources, deferred inflows of resources, and pension expense for each of the above plans as follows:

Pension Plan	Collective Net Pension Liability	Collective Deferred Outflows of Resources	Collective Deferred Inflows of Resources	Collective Pension Expense

## NOTES TO FINANCIAL STATEMENTS

JUNE 30, 2018

---

The details of each plan are as follows:

### **California State Teachers' Retirement System (CalSTRS)**

#### **Plan Description**

The District contributes to the State Teachers Retirement Plan (STRP) administered by the California State Teachers' Retirement System (CalSTRS). STRP is a cost-sharing multiple-employer public employee retirement system defined benefit pension plan. Benefit provisions are established by State statutes, as legislatively amended, within the State Teachers' Retirement Law.

A full description of the pension plan regarding benefit provisions, assumptions (for funding, but not accounting purposes), and membership information is listed in the June 30, 2016, annual actuarial valuation report, Defined Benefit Program Actuarial Valuation. This report and CalSTRS audited financial information are publicly available reports that can be found on the CalSTRS website under Publications at:

<http://www.calstrs.com/member-publications>.

#### **Benefits Provided**

The STRP provides retirement, disability and survivor benefits to beneficiaries. Benefits are based on members' final compensation, age, and years of service credit. Members hired on or before December 31, 2012, with five years of credited service are eligible for the normal retirement benefit at age 60. Members hired on or after January 1, 2013, with five years of credited service are eligible for the normal retirement benefit at age 62. The normal retirement benefit is equal to 2.0 percent of final compensation for each year of credited service.

The STRP is comprised of four programs: Defined Benefit Program, Defined Benefit Supplement Program, Cash Balance Benefit Program, and Replacement Benefits Program. The STRP holds assets for the exclusive purpose of providing benefits to members and beneficiaries of these programs. CalSTRS also uses plan assets to defray reasonable expenses of administering the STRP. Although CalSTRS is the administrator of the STRP, the state is the sponsor of the STRP and obligor of the trust. In addition, the state is both an employer and nonemployer contributing entity to the STRP.

The District contributes exclusively to the STRP Defined Benefit Program, thus disclosures are not included for the other plans.

Required State contribution rate	9.328%	9.328%

**Contributions**

Required member, District, and State of California contributions rates are set by the California Legislature and Governor and detailed in Teachers' Retirement Law. The contributions rates are expressed as a level percentage of payroll using the entry age normal actuarial method. In accordance with AB 1469, employer contributions into the CalSTRS will be increasing to a total of 19.1 percent of applicable member earnings phased over a seven-year period. The contribution rates for each plan for the year ended June 30, 2018, are presented above and the District's total contributions were \$3,361,248.

**Pension Liabilities, Pension Expense, and Deferred Outflows of Resources and Deferred Inflows of Resources Related to Pensions**

At June 30, 2018, the District reported a liability for its proportionate share of the net pension liability that reflected a reduction for State pension support provided to the District. The amount recognized by the District as its proportionate share of the net pension liability, the related state support and the total portion of the net pension liability that was associated with the District were as follows:

Total Net Pension Liability, Including State Share:

District's proportionate share of net pension liability	\$ 40,035,990
State's proportionate share of the net pension liability associated with the District	23,684,954
Total	<u>\$ 63,720,944</u>

The net pension liability was measured as of June 30, 2017. The District's proportion of the net pension liability was based on a projection of the District's long-term share of contributions to the pension plan relative to the projected contributions of all participating school districts and the State, actuarially determined. The District's proportionate share for the measurement period June 30, 2017 and June 30, 2016, respectively, was 0.0433 percent and 0.0450 percent, resulting in a net decrease in the proportionate share of 0.0017 percent.

For the year ended June 30, 2018, the District recognized pension expense of \$3,841,831. In addition, the District recognized pension expense and revenue of \$1,926,083 for support provided by the State. At June 30, 2018, the District reported deferred outflows of resources and deferred inflows of resources related to pensions from the following sources:

	Deferred Outflows of Resources	Deferred Inflows of Resources
Pension contributions subsequent to measurement date	\$ 3,361,248	\$ -
Net change in proportionate share of net pension liability	1,229,838	2,679,152
Difference between projected and actual earnings on pension plan investments	-	1,066,270
Differences between expected and actual experience in the measurement of the total pension liability	148,057	698,292
Changes of assumptions	7,417,135	-
Total	<u>\$ 12,156,278</u>	<u>\$ 4,443,714</u>

The deferred outflows of resources related to pensions resulting from District contributions subsequent to the measurement date will be recognized as a reduction of the net pension liability in the subsequent fiscal year.

The deferred outflows/(inflows) of resources related to the difference between projected and actual earnings on pension plan investments will be amortized over a closed five-year period and will be recognized in pension expense as follows:

Year Ended June 30,	Deferred Outflows/(Inflows) of Resources
2019	\$ (886,430)
2020	670,765
2021	96,720

**JUNE 30, 2018**

The deferred outflows/(inflows) of resources related to the net change in proportionate share of net pension liability, differences between expected and actual experience in the measurement of the total pension liability, and changes of assumptions will be amortized over the Expected Average Remaining Service Life (EARSL) of all members that are provided benefits (active, inactive, and retirees) as of the beginning of the measurement period. The EARSL for the measurement period is seven years and will be recognized in pension expense as follows:

Year Ended June 30,	Deferred Outflows/(Inflows) of Resources
2019	\$ 913,842
2020	913,842
2021	913,842
2022	913,846
2023	687,557
Thereafter	1,074,657
Total	<u>\$ 5,417,586</u>

**Actuarial Methods and Assumptions**

Total pension liability for STRP was determined by applying update procedures to a financial reporting actuarial valuation as of June 30, 2016, and rolling forward the total pension liability to June 30, 2017. The financial reporting actuarial valuation as of June 30, 2016, used the following methods and assumptions, applied to all prior periods included in the measurement:

Valuation date	June 30, 2016
Measurement date	June 30, 2017
Experience study	July 1, 2010 through June 30, 2015
Actuarial cost method	Entry age normal
Discount rate	7.10%
Investment rate of return	7.10%
Consumer price inflation	2.75%
Wage growth	3.50%

CalSTRS uses a generational mortality assumption, which involves the use of a base mortality table and projection scales to reflect expected annual reductions in mortality rates at each age, resulting in increases in life expectancies each year into the future. The base mortality tables are CalSTRS custom tables derived to best fit the patterns of mortality among its members. The projection scale was set equal to 110 percent of the ultimate improvement factor from the Mortality Improvement Scale (MP-2016) table, issued by the Society of Actuaries.

**GOLETA UNION SCHOOL DISTRICT**

**NOTES TO FINANCIAL STATEMENTS**

**JUNE 30, 2018**

The long-term expected rate of return on pension plan investments was determined using a building-block method in which best estimate ranges of expected future real rates of return (expected returns, net of pension plan investment expense and inflation) are developed for each major asset class. The best estimate ranges were developed using capital market assumptions from CalSTRS general investment consultant (Pension Consulting Alliance-PCA) as an input to the process. The actuarial investment rate of return assumption was adopted by the board in February 2017 in conjunction with the most recent experience study. For each future valuation, CalSTRS consulting actuary (Milliman) reviews the return assumption for reasonableness based on the most current capital market assumptions. Best estimates of 20-year geometrically-linked real rates of return and the assumed asset allocation for each major asset class for the year ended June 30, 2017, are summarized in the following table:

Asset Class	Assumed Asset Allocation	Long-Term Expected Real Rate of Return
Global equity	47%	6.30%
Fixed income	12%	0.30%
Real estate	13%	5.20%
Private equity	13%	9.30%
Absolute Return/Risk Mitigating Strategies	9%	2.90%
Inflation sensitive	4%	3.80%
Cash/liquidity	2%	-1.00%

**Discount Rate**

The discount rate used to measure the total pension liability was 7.10 percent. The projection of cash flows used to determine the discount rate assumed the contributions from plan members and employers will be made at statutory contribution rates. Projected inflows from investment earnings were calculated using the long-term assumed investment rate of return (7.10 percent) and assuming that contributions, benefit payments and administrative expense occurred midyear. Based on these assumptions, the STRP's fiduciary net position was projected to be available to make all projected future benefit payments to current plan members. Therefore, the long-term assumed investment rate of return was applied to all periods of projected benefit payments to determine total pension liability.

The following presents the District's proportionate share of the net pension liability calculated using the current discount rate as well as what the net pension liability would be if it were calculated using a discount rate that is one percent lower or higher than the current rate:

Discount Rate	Net Pension Liability
1% decrease (6.10%)	\$ 58,785,544
Current discount rate (7.10%)	40,035,990
1% increase (8.10%)	24,819,457

### California Public Employees Retirement System (CalPERS)

#### Plan Description

Qualified employees are eligible to participate in the School Employer Pool (SEP) under the California Public Employees' Retirement System (CalPERS), a cost-sharing multiple-employer public employee retirement system defined benefit pension plan administered by CalPERS. Benefit provisions are established by State statutes, as legislatively amended, within the Public Employees' Retirement Law.

A full description of the pension plan regarding benefit provisions, assumptions (for funding, but not accounting purposes), and membership information is listed in the June 30, 2016 annual actuarial valuation report, Schools Pool Actuarial Valuation. This report and CalPERS audited financial information are publicly available reports that can be found on the CalPERS website under Forms and Publications at: <https://www.calpers.ca.gov/page/forms-publications>.

#### Benefits Provided

CalPERS provides service retirement and disability benefits, annual cost of living adjustments, and death benefits to plan members, who must be public employees and beneficiaries. Benefits are based on years of service credit, a benefit factor, and the member's final compensation. Members hired on or before December 31, 2012, with five years of total service are eligible to retire at age 50 with statutorily reduced benefits. Members hired on or after January 1, 2013, with five years of total service are eligible to retire at age 52 with statutorily reduced benefits. All members are eligible for non-duty disability benefits after five years of service. The Basic Death Benefit is paid to any member's beneficiary if the member dies while actively employed. An employee's eligible survivor may receive the 1957 Survivor Benefit if the member dies while actively employed, is at least age 50 (or 52 for members hired on or after January 1, 2013), and has at least five years of credited service. The cost of living adjustments for each plan are applied as specified by the Public Employees' Retirement Law.

The CalPERS provisions and benefits in effect at June 30, 2018, are summarized as follows:

	School Employer Pool (CalPERS)	
	On or before	On or after
Hire date	December 31, 2012	January 1, 2013
Benefit formula	2% at 55	2% at 62
Benefit vesting schedule	5 Years of Service	5 Years of Service
Benefit payments	Monthly for Life	Monthly for Life
Retirement age	55	62
Monthly benefits as a percentage of eligible compensation	1.1% - 2.5%	1.0% - 2.5%
Required employee contribution rate	7.000%	6.500%
Required employer contribution rate	15.531%	15.531%

### Contributions

Section 20814(c) of the California Public Employees' Retirement Law requires that the employer contribution rates for all public employers be determined on an annual basis by the actuary and shall be effective on the July 1 following notice of a change in the rate. Total plan contributions are calculated through the CalPERS annual actuarial valuation process. The actuarially determined rate is the estimated amount necessary to finance the costs of benefits earned by employees during the year, with an additional amount to finance any unfunded accrued liability. The District is required to contribute the difference between the actuarially determined rate and the contribution rate of employees. The contributions rates are expressed as percentage of annual payroll. The contribution rates for each plan for the year ended June 30, 2018, are presented above and the total District contributions were \$1,529,450.

### Pension Liabilities, Pension Expense, and Deferred Outflows of Resources and Deferred Inflows of Resources Related to Pensions

As of June 30, 2018, the District reported net pension liabilities for its proportionate share of the CalPERS net pension liability totaling \$16,776,727. The net pension liability was measured as of June 30, 2017. The District's proportion of the net pension liability was based on a projection of the District's long-term share of contributions to the pension plan relative to the projected contributions of all participating school districts, actuarially determined. The District's proportionate share for the measurement period June 30, 2017 and June 30, 2016, respectively, was 0.0703 percent and 0.0716 percent, resulting in a net decrease in the proportionate share of 0.0013 percent.

For the year ended June 30, 2018, the District recognized pension expense of \$2,763,456. At June 30, 2018, the District reported deferred outflows of resources and deferred inflows of resources related to pensions from the following sources:

	Deferred Outflows of Resources	Deferred Inflows of Resources
Pension contributions subsequent to measurement date	\$ 1,529,450	\$ -
Net change in proportionate share of net pension liability	4,161	591,958
Difference between projected and actual earnings on pension plan investments	580,360	-

Changes of assumptions	2,450,505	197,525
Total	<u>\$ 5,165,517</u>	<u>\$ 789,483</u>

The deferred outflows of resources related to pensions resulting from District contributions subsequent to the measurement date will be recognized as a reduction of the net pension liability in the subsequent fiscal year.

### Actuarial Methods and Assumptions

Total pension liability for the SEP was determined by applying update procedures to a financial reporting actuarial valuation as of June 30, 2016, and rolling forward the total pension liability to June 30, 2017. The financial reporting actuarial valuation as of June 30, 2016, used the following methods and assumptions, applied to all prior periods included in the measurement:

Valuation date	June 30, 2016
Measurement date	June 30, 2017
Experience study	July 1, 1997 through June 30, 2011
Actuarial cost method	Entry age normal
Discount rate	7.15%
Investment rate of return	7.15%
Consumer price inflation	2.75%
Wage growth	Varies by entry age and service

The mortality table used was developed based on CalPERS-specific data. The table includes 20 years of mortality improvements using Society of Actuaries Scale BB.

In determining the long-term expected rate of return, CalPERS took into account both short-term and long-term market return expectations as well as the expected pension fund cash flows. Using historical returns of all the funds' asset classes, expected compound returns were calculated over the short-term (first ten years) and the long-term (11+ years) using a building-block approach. Using the expected nominal returns for both short-term and long-term, the present value of benefits was calculated for each fund. The expected rate of return was set by calculating the rounded single equivalent expected return that arrived at the same present value of benefits for cash flows as the one calculated using both short-term and long-term returns. The expected rate of return was then set equal to the single equivalent rate calculated above and adjusted to account for assumed administrative expenses. The target asset allocation and best estimates of arithmetic real rates of return for each major asset class are summarized in the following table:

<u>Asset Class</u>	<u>Assumed Asset Allocation</u>	<u>Long-Term Expected Real Rate of Return</u>
Global equity	47%	5.38%
Global debt securities	19%	2.27%
Inflation assets	6%	1.39%
Private equity	12%	6.63%
Real estate	11%	5.21%
Infrastructure and Forestland	3%	5.36%
Liquidity	2%	-0.90%

### Discount Rate

The discount rate used to measure the total pension liability was 7.15 percent. The projection of cash flows used to determine the discount rate assumed the contributions from plan members and employers will be made at statutory contribution rates. Based on these assumptions, the School Employer Pool fiduciary net position was projected to be available to make all projected future benefit payments to current plan members. Therefore, the long-term assumed investment rate of return was applied to all periods of projected benefit payments to determine total pension liability.

The following presents the District's proportionate share of the net pension liability calculated using the current discount rate as well as what the net pension liability would be if it were calculated using a discount rate that is one percent lower or higher than the current rate:

Discount Rate	Net Pension Liability
1% decrease (6.15%)	\$ 24,683,942
Current discount rate (7.15%)	16,776,727
1% increase (8.15%)	10,217,030

### On Behalf Payments

The State of California makes contributions to CalSTRS on behalf of the District. These payments consist of State General Fund contributions to CalSTRS in the amount of \$1,926,083 (9.328 percent of annual payroll). Contributions are no longer appropriated in the annual *Budget Act* for the legislatively mandated benefits to CalPERS. Therefore, there is no on behalf contribution rate for CalPERS. Under accounting principles generally accepted in the United States of America, these amounts are to be reported as revenues and expenditures. Accordingly, these amounts have been recorded in these financial statements. On behalf payments have been included in the calculation of available reserves, but have not been included in the budgeted amounts reported in the *General Fund - Budgetary Comparison Schedule*.

## NOTE 13 - COMMITMENTS AND CONTINGENCIES

### Grants

The District received financial assistance from Federal and State agencies in the form of grants. The disbursement of funds received under these programs generally requires compliance with terms and conditions specified in the grant agreements and are subject to audit by the grantor agencies. Any disallowed claims resulting from such audits could become a liability of the General Fund or other applicable funds. However, in the opinion of management, any such disallowed claims will not have a material adverse effect on the overall financial position of the District at June 30, 2018.

### Litigation

The District is not currently a party to any legal proceedings.

**NOTE 14 - PARTICIPATION IN PUBLIC ENTITY RISK POOLS AND JOINT POWER AUTHORITIES**

The District is a member of the Self-Insured Schools of California II and III (SISC II and SISC III), and the Santa Barbara County Schools Self-Insurance Program for Employees (SIPE) public entity risk pools joint powers authority (JPA). The County pays an annual premium to each entity for its property and liability, health benefits, and workers' compensation coverage, respectively. The relationships between the District, the pools, and the JPA are such that they are not component units of the District for financial reporting purposes.

These entities have budgeting and financial reporting requirements independent of member units and their financial statements are not presented in these financial statements; however, fund transactions between the entities and the County are included in these statements. Audited financial statements are available from the respective entities.

During the year ended June 30, 2018, the District made payments of \$231,381, \$4,783,056, and \$640,224, to SISC II, SISC III, and SIPE, respectively, for services received.

**NOTE 15 - RESTATEMENT OF PRIOR YEAR NET POSITION**

The District adopted GASB Statement No. 75, *Accounting and Financial Reporting for Postemployment Benefits Other Than Pensions*, in the current year. As a result, the effect on the current fiscal year is as follows:

## NOTE TO REQUIRED SUPPLEMENTARY INFORMATION JUNE 30, 2018

---

### NOTE 1 - PURPOSE OF SCHEDULES

#### Budgetary Comparison Schedules

The District employs budget control by object codes and by individual appropriation accounts. Budgets are prepared on the modified accrual basis of accounting in accordance with accounting principles generally accepted in the United State of America as prescribed by the Governmental Accounting Standards Board and provisions of the California *Education Code*. The governing board is required to hold a public hearing and adopt an operating budget no later than July 1 of each year. The adopted budget is subject to amendment throughout the year to give consideration to unanticipated revenue and expenditures primarily resulting from events unknown at the time of budget adoption with the legal restriction that expenditures cannot exceed appropriations by major object account.

The amounts reported as the original budgeted amounts in the budgetary statements reflect the amounts when the original appropriations were adopted. The amounts reported as the final budgeted amounts in the budgetary statements reflect the amounts after all budget amendments have been accounted for.

These schedules presents information for the original and final budgets and actual results of operations, as well as the variances from the final budget to actual results of operations.

At June 30, 2018, the District major funds exceeded the budgeted amount in total as follows:

	Expenditures and Other Uses		
	Budget	Actual*	Excess
General Fund	\$ 50,222,953	\$ 51,156,859	\$ 933,906
Child Development Fund	\$ 342,451	\$ 342,597	\$ 146

\* On behalf payments of \$1,926,083 are included in the actual expenditures of the General Fund.

#### Schedule of the District's Proportionate Share of the Net OPEB Liability - MPP Program

This schedule presents information on the District's proportionate share of the net OPEB Liability – MPP Program and the plans' fiduciary net position. In the future, as data becomes available, ten years of information will be presented.

**Changes in Benefit Terms** – There were no changes in the benefit terms since the previous valuation.

**Changes of Assumptions** – The plan rate of investment return assumption was changed from 2.85 percent to 3.58 percent since the previous valuation.

### NOTE 1 - PURPOSE OF SCHEDULES

#### Schedule of Expenditures of Federal Awards

The accompanying Schedule of Expenditures of Federal Awards includes the Federal grant activity of the District and is presented on the modified accrual basis of accounting. The information in this schedule is presented in accordance with the requirements of Title 2 U.S. *Code of Federal Regulations* Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards* (Uniform Guidance). Therefore, some amounts presented in this schedule may differ from amounts presented in, or used in the preparation of, the financial statements. The District has not elected to use the ten percent de minimis cost rate as covered in Section 200.414 Indirect (F&A) costs of the Uniform Guidance.

The following schedule provides reconciliation between revenues reported on the Statement of Revenues, Expenditures, and Changes in Fund Balances, and the related expenditures reported on the Schedule of Expenditures of Federal Awards. The reconciling amounts consist of Medi-Cal Billing Option funds that in the previous period were recorded as revenues but were unspent. These unspent balances have been expended in the current period.

	<u>CFDA Number</u>	<u>Amount</u>
Total Federal Revenues from the Statement of Revenues, Expenditures, and Changes in Fund Balances:		\$ 14,644,719
Medi-Cal Billing Option	93.778	<u>19,768</u>
Total Schedule of Expenditures of Federal Awards		<u>\$ 14,664,487</u>

#### Local Education Agency Organization Structure

This schedule provides information about the District's boundaries and schools operated members of the governing board, and members of the administration.

#### Schedule of Average Daily Attendance (ADA)

Average daily attendance (ADA) is a measurement of the number of pupils attending classes of the District. The purpose of attendance accounting from a fiscal standpoint is to provide the basis on which apportionments of State funds are made to school districts. This schedule provides information regarding the attendance of students at various grade levels and in different programs.

#### Schedule of Instructional Time

The District has received incentive funding for increasing instructional time as provided by the Incentives for Longer Instructional Day. The District neither met nor exceeded its target funding. This schedule presents information on the amount of instructional time offered by the District and whether the District complied with the provisions of *Education Code* Sections 46200 through 46206.

Districts must maintain their instructional minutes at 1986-87 requirements, as required by *Education Code* Section 46201.

## NOTE TO SUPPLEMENTARY INFORMATION JUNE 30, 2018

---

### **Reconciliation of Annual Financial and Budget Report With Audited Financial Statements**

This schedule provides the information necessary to reconcile the fund balance of all funds reported on the Unaudited Actual Financial Report to the audited financial statements.

### **Schedule of Financial Trends and Analysis**

This schedule discloses the District's financial trends by displaying past years' data along with current year budget information. These financial trend disclosures are used to evaluate the District's ability to continue as a going concern for a reasonable period of time.

### **Non-Major Governmental Funds - Balance Sheet and Statement of Revenues, Expenditures, and Changes in Fund Balances**

The Non-Major Governmental Funds Combining Balance Sheet and Combining Statement of Revenues, Expenditures, and Changes in Fund Balances are included to provide information regarding the individual funds that have been included in the Non-Major Governmental Funds column on the Governmental Funds Balance Sheet and Statement of Revenues, Expenditures, and Changes in Fund Balances.

According to *Education Code* Section 8483(a)(2), elementary school pupils are to participate in the full day of the after school program every day during which pupils participate, except as consistent with the established early release policy. In addition, adequate documentation that supports student attendance must be maintained for each site that offers the program.

According to *Education Code* Section 8483.1(a)(2)(A), elementary school pupil should participate in the full day of the before school program every day during which pupils participate, except when arriving later in accordance with the established late arrival policy or as reasonably necessary. A pupil who attends less than one-half of the daily program hours shall not be counted for the purposes of attendance.

#### **Condition**

Documentation supporting the number of students served does not agree with the amounts reported on the semi-annual report. The District maintains sign-in/sign-out sheets (rosters) for students in order to track attendance. The auditor tested the after-school program at El Camino Elementary School and the before-school program at Isla Vista Elementary School for the month of October 2017.

For the after-school program, the auditor counted each student on the sign-out sheet who was signed out at or after 6 p.m. and each student who left early and had a documented reason on file for his or her early release. According to the worksheet used to prepare the 2017-2018 First Half Attendance Report, El Camino Elementary School had 411 student attendance days for the month, but the auditor's count per the criteria described above yielded 231 student attendance days, resulting in a difference of 180 days.

For the before-school program, the auditor counted each student on the sign-in sheet who was signed in at or before 7 a.m. and each student who arrived late and had a documented reason on file for his or her late arrival. According to the worksheet used to prepare the 2017-2018 First Half Attendance Report, Isla Vista Elementary School had 93 student attendance days for the month, but the auditor's count per the criteria described above yielded 53 student attendance days, resulting in a difference of 40 days.

Variances were a result of a lack of documentation for the reason for early sign-out, sign-out time missing, and human error.

## STATE AWARDS FINDINGS AND QUESTIONED COSTS FOR THE YEAR ENDED JUNE 30, 2018

---

### **Questioned costs**

Under the provisions of the program, there are no questioned costs associated with the condition. However, the number of students served appears to be overstated by 180 in the after-school program at El Camino Elementary School and by 40 in the before-school program at Isla Vista Elementary School for the month of October 2017.

### **Context**

The condition identified was determined through a review of attendance records from the after-school program at El Camino Elementary School and the before-school program at Isla Vista Elementary. Manual sign-in/sign-out rosters were reviewed for each child's sign-out/sign-in time for the first semi-annual reporting period. The auditor then compared the manual rosters to the summaries used to report the number of students served and noted a difference of 180 for El Camino Elementary School and 40 for Isla Vista Elementary School.

### **Effect**

There is not sufficient documentation to support the number of students served as reported to the California Department of Education. It appears that the District overstated the number of student attendance days by 180 for the after-school program at El Camino Elementary School and by 40 for the before-school program at Isla Vista Elementary School for the first semi-annual period.

### **Cause**

It appears that the condition identified has materialized as a result of the District including students in the attendance count who did not have documentation for early release or late arrival, as applicable, in accordance with the District's policy.

### **Recommendation**

The District should ensure that site staff and parents of participants understand the early sign-out and late sign-in procedures and requirements for the program.

In addition, staff should perform adequate review of the attendance reports prior to submission to the California Department of Education. The District should ensure that early release and/or late arrival documentation is on file for all students who leave early or arrive late. In the event that students do not have a documented reason for early release or late arrival, the District should not include those students in their count of students served when summarizing attendance information on the semi-annual report.

### **Corrective Action Plan**

Attendance in all programs is a critical recordkeeping process. The District has implemented a process that provides an additional level of review of attendance reports for the ASES program by administrative staff at the District Office. Communication will also be made to ASES staff responsible for recording attendance and monitoring sign in and sign out sheets reiterating the fact that any student dropped off late in the morning, after 6:45 am, or picked up early in the afternoon/evening, prior to 5:45pm, must have a valid reason documented on the attendance sheet for each instance.

## SUMMARY SCHEDULE OF PRIOR AUDIT FINDINGS FOR THE YEAR ENDED JUNE 30, 2018

---

Except as specified in previous sections of this report, summarized below is the current status of all audit findings reported in the prior year's schedule of financial statement findings.

### *State Awards Findings*

#### **2017-001 Code 40000**

##### **Criteria or Specific Requirements**

According to *Education Code* Section 8483.1(a)(2)(A), elementary school pupils are to participate in the full day of the before school program every day during which pupils participate, except as consistent with the established late arrival policy.

According to *Education Code* Section 8483(a)(2), elementary school pupils are to participate in the full day of the after school program every day during which pupils participate, except as consistent with the established early release policy.

In addition, adequate documentation that supports student attendance must be maintained for each site that offers the program.

##### **Condition**

Documentation supporting the number of students served does not agree with the amounts reported on the semi-annual attendance report. The District maintains sign-in/sign-out sheets (rosters) for students in order to track attendance. The auditor tested the program at Isla Vista Elementary School, one of three sites operating the program in the District, and recomputed the attendance as indicated on the rosters to determine if total attendance for the month of October 2016 agrees with the amount reported on the semi-annual report.

For the before school program, the auditor counted each student on the sign-out sheet who was signed in at 6:45 a.m. and each student who arrived late and had a reason on for the late arrival noted on the sign-in sheet, in accordance with the District's late arrival policy. According to the worksheet used to prepare the 2016-2017 First Half Attendance Report, Isla Vista Elementary School had 857 student attendance days for the month, but the auditor's count per the criteria described above yielded 180 student attendance days, resulting in a difference of 677 days. The auditor noted only five students who were signed in between 6:45 and 7:00 a.m. most days of the month

For the after school program, the auditor counted each student on the sign-out sheet who was signed out at or after 6 p.m. and each student who left early and had a documented reason on file for his or her early release in accordance with the District early release policy. According to the worksheet used to prepare the 2016-2017 First Half Attendance Report, Isla Vista Elementary School had 2,721 student attendance days for the month, but the auditor's count per the criteria described above yielded 2,587 student attendance days, resulting in a difference of 134 days.

The variances were a result of a lack of documentation for the reason for early sign in or out, sign-in or sign-out time missing, and human error.

## SUMMARY SCHEDULE OF PRIOR AUDIT FINDINGS FOR THE YEAR ENDED JUNE 30, 2018

---

### **Questioned Costs**

Under the provisions of the program, there are no questioned costs associated with the condition. However, the number of student served appears to be overstated by 677 and 134 for the before school and after school programs, respectively, at Isla Vista Elementary School for the month of October 2016.

### **Context**

The condition identified was determined through a review of attendance records from the Isla Vista Elementary School in the district that operates the after school program. Manual sign-in/sign-out rosters were reviewed for each pupil's sign-in time for the before school program and the sign-out time for the after school program for the first semi-annual reporting period. The auditor then compared the manual rosters to the summaries used to report the number of students served and noted a difference of 677 for the before school program and 134 for the after school program for Isla Vista Elementary School.

### **Effect**

There is not sufficient documentation to support the number of students served as reported to the California Department of Education. It appears that the District overstated the number of student attendance days by 677 and 134 for the before school and after school programs, respectively for Isla Vista Elementary School for the first semi-annual period.

### **Cause**

It appears that the condition identified has materialized as a result of the District not ensuring that the total number of student days of attendance recorded on the manual rosters in accordance with its attendance policies for the Program agreed to the monthly summaries and the attendance reports that were submitted to the California Department of Education.

### **Recommendation**

The District should ensure adequate review of the attendance reports prior to submission to the California Department of Education. In addition, the total number of students served in accordance with its attendance policies for the Program as noted in the manual rosters should reconcile to the total number of students reported on the attendance report.

### **Current Status**

Not implemented, see current year finding 2018-001.
